

Fairytales Legends: Mirror Mirror Touch™ Game rules

- Fairytales Legends: Mirror Mirror Touch™ is a 243-bet way, 5-reel, 3-row video slot with Random Features, Bonus Features, and Mirror Re-Spins.
- The game is played on 243 bet ways, 1 - 10 levels (10 coins per level), and different coin values.
- There are no bet lines.
- The bet level is set using the Bet level slider.
- The coin value is set using the Coin value slider.
- **COINS** displays the number of coins available to wager.
- **AUTOPLAY** automatically plays the game for the selected number of rounds.
- Winning combinations and payouts are made according to the Paytable.
- Matching symbols in any position on 3 or more adjacent reels (in case of the game logo symbol, on 2 or more adjacent reels), starting from the leftmost reel to the rightmost reel, is a bet way win.
- Bet way wins pay if in succession from leftmost reel to right.
- Only the longest matching combination per symbol is paid.
- More bet way wins are created when additional instances of the symbol appear on the same reels that create the longest bet way win.
- It is possible to win on maximum 3 different symbols at the same time in the main game.
- A symbol win in coins is equal to the value shown in the Paytable multiplied by the bet level and the amount of times that symbol appears on each of the reels.
- A bet way win in coins is equal to the value shown in the **PAYTABLE** multiplied by the bet level.
- A bet way win in currency is equal to the win in coins multiplied by the coin value.
- Random Features and Bonus Features are played at the same bet level and coin value as the round that activated them.
- The Mirror Re-Spin and the Bonus Features cannot be activated during the Random Features.
- At the end of Random and Bonus Features, the total win from these features is added to the round that activated the features.
- All five reels contain a number of adjacent positions that, for every new spin, are randomly replaced with one of the medium win symbols except for the game logo symbol.

Example of a Way to Win payout at level 1

- 3 matching Princess symbols on adjacent reels starting from the leftmost reel award 15 coins. This is multiplied by 2 (for 2 Princess symbols on reel 3), giving a total win of $2 \times 15 = 30$.

Mirror Re-Spin

- The Mirror symbol can only appear on reel 3 in the main game, and on reels 1, 2, and 3 in Free Spins.
- Whenever the Mirror symbol lands on the reel, it transforms into either the Princess or the Queen symbol.
- The symbols of the same type as the Mirror symbol has transformed into, remain in the same position on the reels during the Mirror Re-Spin.
- More Re-Spins are awarded, if 1 or more symbols into which the Mirror symbol has transformed, land again on the reels during the Mirror Re-spin.
- No Random Features or Bonus Features can be activated during the Mirror Re-Spin.
- The Bonus Features and the Mirror Re-Spin cannot be activated during the same spin.
- Mirror Re-Spins end when there are no new symbols on the reels that the Mirror symbol has transformed into.
- The winnings from the Mirror Re-Spin are counted at the end of the feature.
- Mirror Re-Spin wins are added to any wins from the initial spin.

Random Features

- The 3 Random Features are: Fairy Magic Spin, Fairy Surprise and Fairy Mirror Feature.
- Random Features are activated randomly in the main game.
- Random Features cannot be activated during the Mirror Re-Spin or Bonus Features.
- Random Features cannot be activated at the same time as a Bonus Feature.

Fairy Magic Spin

- In this Random Feature, a random cluster of 5 to 7 medium win symbols, except for the game logo symbol, appears as an overlay on the reels for one spin.

Fairy Surprise

- The Fairy Surprise Random Feature is activated randomly in case of a no-win situation in the main game.

- A symbol is randomly selected from the medium win symbols on the reels after the spin. Other symbols, starting from the low win symbols, will turn into the selected symbol until a win is awarded.

Fairy Mirror Feature

- In this Random Feature, the Mirror symbol is randomly placed in the middle of reel 3, thus awarding a Mirror Re-Spin (for more information see Game Rules under the section "Mirror Re-Spin").
- Whenever the Mirror symbol lands on the reel, it transforms into either the Princess or the Queen symbol.
- The symbols of the same type as the Mirror symbol has transformed into, remain in the same position on the reels during the Mirror Re-Spin.
- More Re-Spins are awarded, if 1 or more symbols into which the Mirror symbol has transformed, land again on the reels during the Mirror Re-spin.

Bonus Features

- 3 Bonus symbols appearing on reels 1, 3 and 5 in the main game activate one of the Bonus Features.
- The Bonus Features can also be activated randomly in case of a no-win situation in the main game: if 2 of the Bonus symbols land on reels 1 and 3, the third symbol may then be randomly placed on reel 5.
- To activate a Bonus Feature, the player picks one of three chests.
- If Autoplay is enabled, one of the chests will be chosen automatically in 7 seconds if no player input was made.
- The 3 Bonus Features are: Mining Bonus, Free Spins and Coin Win.

Mining Bonus

- When the Mining Bonus is activated, the player breaks 1 crystal at a time out of 9 with a pickaxe.
- Each of the crystals equals a certain coin win.
- The minimum and maximum coin wins range between 50 and 500 coins multiplied by the current bet level.
- The Mining Bonus ends when either all of the crystals have been broken or when the pickaxe gets broken.
- The pickaxe may break at any time after the third pick.
- The total coin win is equal to the sum of all coin wins collected.

Free Spins

- When Free Spins are activated, the player is awarded with 10 Free Spins.
- Free Spins are played at the same bet level and coin value as the round that activated Free Spins.
- Additional Free Spins cannot be won during Free Spins.
- During Free Spins, the Mirror symbol can appear on reels 1, 2, and 3.

- 1 or more Mirror symbols appearing on the reels during Free Spins activate the Mirror Re-Spin.
- Whenever the Mirror symbols land on the reels during Free Spins, they all transform into either the Princess symbol or the Queen symbol.
- The symbols of the same type as the Mirror symbol has transformed into, remain in the same position on the reels during the Mirror Re-Spin.
- More Re-Spins are awarded, if 1 or more symbols into which the Mirror symbol has transformed, land again on the reels during the Mirror Re-spin.
- Mirror Re-Spins work the same way during Free Spins, as they do in the main game (for more information see Game Rules under the section "Mirror Re-Spin").
- The Total Win field includes any wins during Free Spins added to any wins from the round that activated Free Spins.

Coin Win

- If the Coin Win is won, the player is awarded a coin win, which is equal to the current bet multiplied x15.
