Don't Eat the Candy Game Rules

SPECIAL SYMBOLS AND FEATURES

STICKY WIN™

3 or more symbols in a winning line – or 3 or more Scatter symbols anywhere on the reels – activate the Sticky Win™. Winning symbols are locked in place, while the rest of the symbols respin. If the respin gives you new line matching symbols, those will be added to the locked symbols and the remaining symbols spin again.

This continues until the screen is filled with winning symbols, or you don't land any further winning symbols to add to the Sticky symbols. Wins are paid out after the respins.

PUMPKIN FEATURES

The Pumpkin symbol may land anywhere on the reels and execute one of the following three features – Multiplier x2, reels expand from 5x3 to 5x4, or low-win symbol/s replace with higher-win symbol/s.

Multiplier – this feature is a global multiplier and is always x2.

Reels Expand – this feature expands the reels from 5x3 to 5x4.

Replace Symbols – this feature replaces low-win symbol/s with higher-win symbol/s according to the symbol payout values.

During main game the Pumpkin features are awarded randomly and remain activated only for the current spin when they were triggered.

WINNING LINES WITH EXPANDED ROW

When the grid size is 5x3 the available win lines are those from index 1 to index 25 as shown in the WINNING LINES paytable. When the reels expand to 5x4 the available win lines will be those from index 26 to index 75 shown in the two WINNING LINES WITH EXPANDED ROW pages of the Pays menu.

FREE SPINS

5 or more Scatter symbols trigger Free Spins. 5 Scatter symbols award 10 Free Spins and pay 3 times the current bet. Each additional Scatter during the triggering spin awards 3 more Free Spins. The Free Spins cannot be retriggered.

During Free Spins the Pumpkin features execute in a specific order and will remain until the end of the Free Spins session. With the first landing of the Pumpkin symbol the global Multiplier x2 will be awarded. With next Pumpkin symbol appearance the reels will expand from 5x3 to 5x4. With each subsequent appearance of the Pumpkin symbol, the low-win symbols will be replaced with the next low-win symbols, one by one by type, according to the symbol payout values.

WILD SYMBOL

The Wild symbol can land on reels 2, 3 and 4, and substitute for all paying symbols except the Scatter symbol.

- Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the

linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

The Jackpot is funded by 1% of each stake.

- Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.
