

Goons Gone Wild™

### **About this Game**

This is a 5 reel 3 row to 5 reel 6 row video slot game.

The top row is a single reel which is horizontally oriented.

The objective of the game is to spin the reels so the symbols land in different combinations.

Winning combinations are highlighted on the reels and a payout is awarded.

### **Bet Rules**

Each spin played costs a total bet amount.

The total bet is based on the initial bet placed, multiplied by the cost of the ways played.

The initial bet is the current total bet divided by the way cost of 20.

### **Way Rules**

This game includes 243 ways and can go up to the maximum number of 7776 ways.

A way is a pattern of adjacent symbol positions that runs across the reels.

A win is awarded when matching symbols land adjacent to each other in this pattern.

Way wins run from left to right, starting from the first slot reel.

### **Payout Rules**

Way win payouts are based on the initial bet placed.

The payout value is based on the winning combination formed.

The total payout is the sum of all way wins resulting from a spin.

Only the highest winning combination is awarded per symbol combination.

The win up to value displayed is rounded down, and is approximately the highest possible win achievable on a single spin.

The Paytable displays the payout for each symbol combination based on the current bet.

### **Split Symbols**

Split symbols land on the top row.

When a Split symbol lands, the symbol number will determine the number of symbols on the corresponding reel.

Split symbols add 1, 2 or 3 symbols per reel.

The additional reel size in the base game is carried over to the LockNWin™ feature.

### **Wild Symbols**

Wild symbols can land on reels 2, 3, 4 or 5.

Wild symbols can substitute for other symbols to complete winning combinations.

Wild symbols can substitute for all symbols except Split, Cash Value and Collect symbols.

### **Pot Symbols**

Each Pot symbol collects to the Pot of the same colour above the reels.

Pot symbols appear in base game only.

Pot symbols do not have a payout.

The game has 3 different coloured Pot symbols: red, yellow and pink.

The graphical collection of Pot symbols in this game is purely for visual entertainment and as such does not influence triggering the features.

### **Multiplier Feature**

This feature is available in base game.

The Multiplier starts with a value of 1x and increases with each Multiplier symbol landing on the reels.

When a Collect symbol lands on reel 5, the total value of all Cash Value symbols on screen is multiplied by the Multiplier and awarded.

The Multiplier can increase up to 10x.

The Multiplier resets to 1x at the end of any feature on which it was applied.

The Multiplier feature does not apply to way wins.

### **Collect Feature**

This feature can trigger in base game only.

Cash Value symbols appear on reels 1, 2, 3 or 4.

Cash Value symbols can have values between 0.2x and 10x the total bet.

The maximum Multiplier for the Collect Feature is 10x.

Collect Feature and LockNWin™ Feature cannot be triggered simultaneously.

When a Collect symbol lands on reel 5, the total value of all Cash Value symbols on screen is multiplied by the Multiplier and awarded.

### **LockNWin™ Feature**

Whenever one or more Pot symbols appear there is a chance for a LockNWin™ to be triggered.

The combination of Pot symbols that collect when the LockNWin™ is triggered determines the features awarded.

3 respins are awarded.

All symbols are removed from the reels except Cash Value symbols, which lock into place when they land.

Every time a Cash Value symbol or Jackpot coin lands, the respin count resets to 3.

LockNWin™ ends when the count runs out or the reels are full of Cash Value symbols.

Cash Value symbols can have values between 0.2x and 100x the total bet.

When Multiply LockNWin™ and Supreme LockNWin™ are combined, Cash Value symbols can have values between 0.2x and 100x the total bet.

### **Multiply LockNWin™ Feature**

The Multiply LockNWin™ may be triggered any time a Red Pot symbol lands.

The Multiply LockNWin™ Multiplier starts at 2x.

When a multiplier symbol lands, the value in the symbol is added to the Multiply LockNWin™ multiplier.

Wins awarded during this feature are added to base game wins.

The maximum multiplier that can land is 100x.

When Multiply LockNWin™ and Supreme LockNWin™ are combined, the maximum multiplier that can land is 10x.

When a Cash Value symbol lands, it gets multiplied by the current LockNWin™ Multiplier.

### **Jackpot LockNWin™ Feature**

The Jackpot LockNWin™ may be triggered any time a Yellow Pot symbol lands.

When all positions are collected on a jackpot, the corresponding jackpot is awarded.

More than one jackpot can be won in the Jackpot LockNWin™.

Wins awarded during this feature are added to base game wins.

Some jackpots may not be available depending on the state of the LockNWin™ Feature.

### **Supreme LockNWin™ Feature**

The Supreme LockNWin™ may be triggered any time a Pink Pot symbol lands.

Red Cash Value symbol collects all Yellow Cash Value symbols when it lands.
