

## **SPECIAL SYMBOLS AND FEATURES**

### **FISHERMAN WILD**

The FISHERMAN is a WILD symbol which can land only on the middle position of the 3rd reel and substitutes for all paying symbols. When the FISHERMAN lands he catches all fish symbols present on the reels and awards their corresponding prize.

### **FISH SYMBOLS**

Fish are scatter symbols which can hold various prizes. Fish can land on any position except the middle position of the 3rd reel.

When a fish lands it locks on its position for 2 spins. Additionally, landing a fish symbol resets the lock counter of all other fish symbols present on the reels back to 2. Locked fish symbols will be unlocked if caught by the FISHERMAN.

There are different types of fish that may land.

### **CASH FISH**

CASH FISH hold an instant cash prize representing a stake MULTIPLIER. The possible MULTIPLIERS are 1x, 2x, 3x, 5x or 10x times the current stake. Their combined prize value is awarded when the FISHERMAN lands and catches them.

### **TROPHY FISH**

There are 4 TROPHY FISH types that can land, holding exceptional cash prizes, as follows:

Blue plate TROPHY FISH – 50x

Green plate TROPHY FISH – 100x

Red plate TROPHY FISH – 250x

Purple plate TROPHY FISH – 1000x

### **GOLDEN FISH**

In addition to holding the same possible instant cash prizes as the CASH FISH, each GOLDEN FISH that is present on the reels when the FISHERMAN lands increases the prize MULTIPLIER that is being tracked above the reels. Up to 4 GOLDEN FISH can be present on the reels together at the same time.

The prize MULTIPLIER is applied to the overall value accumulated from all the cash prizes collected by the FISHERMAN when he lands.

The MULTIPLIER values and the GOLDEN FISH required to achieve them are as follows:

1 GOLDEN FISH – 3x

2 GOLDEN FISH – 5x

3 GOLDEN FISH – 10x  
4 GOLDEN FISH – 20x.

## **FREE SPINS FISH**

Triggers FREE SPINS when caught by the FISHERMAN.

## **FREE SPINS**

Each FREE SPINS FISH caught by the FISHERMAN awards 8 FREE SPINS. The FISHERMAN remains locked on its position for the duration of the bonus round and immediately catches all fish symbols that appear.

Each FREE SPINS FISH caught by the FISHERMAN during the bonus round awards a retrigger of 8 additional FREE SPINS.

In FREE SPINS the prize MULTIPLIER awarded by catching GOLDEN FISH remains active for the duration of the bonus round and applies to any fish prizes caught by the FISHERMAN. Up to 4 GOLDEN FISH in total may appear in FREE SPINS, increasing the prize MULTIPLIER the same way as in the base game.

## **HOW TO PLAY TROPHY FISH**

### **Game Progress**

Any progress features in the game, including symbols locked onto the reels which affect subsequent spins, are saved for your game at the stake level you are playing at.

You can have different progress levels at different stakes on the same game, and move between them by changing the stake.

If you are awarded free spins from a promotional campaign any progress in the main game including any locked symbols, will be saved and be available to continue playing at the same stake once the free spins have been completed.

Please note that this stateful game saves its state forever.

### **FEATURE BUY**

The feature starts automatically after your confirmation. If you refresh the game during the feature you will receive the end result. The Buy Feature is activated immediately after clicking the "buy" button. The cost of each feature is displayed in the Feature Buy pop-up and is based on the currently selected stake. Buying a feature does NOT contribute towards any Jackpots.

The calculated overall RTP in Feature Buy is XX.XX%.

Total Stake

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or – buttons.

### Spin the Reels

If you are playing on desktop, click the Spin button or press the spacebar to spin.

### Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. Jackpot prizes are not affected by any game features e.g. multipliers are never applied to jackpots. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

The Jackpot is funded by 1% of each stake.

### Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

## General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game.

In case of an incomplete game round due to connection loss where the result has occurred, but the player could not be informed of this fact, the game will inform the player of the outcome upon refreshing of the game and the result will be visible in the Game

History.

#### Gaming session information

"Gaming session" is considered the time since the current game has been opened, until the time it is closed. Opening the game again from the lobby, or reloading the game in the browser is considered a new gaming session.

"Session timer" is being measured for the current gaming session only.

"Net position" is being based on the current gaming session only, calculating "all real money wins minus all real money bets."

For the best gaming experience, use of the latest version of software is recommended. Malfunction voids all pays and plays.

The RTP is  $\approx XX.XX\%$  which includes base game RTP and jackpot contribution.

Minimum stake: £X.XX

Maximum stake: £XX
