Unfinished Games

If your game round is disrupted, all game information and placed bets are stored until you re-open the game. You may continue your unfinished round from the point of interruption. Unresolved bets placed but remaining undecided in incomplete games will become void after 30 days. Malfunction voids all pays and plays.

Information

Way wins are awarded for adjacent symbol combinations, according to the information in the paytable and game rules. When winning on multiple ways in a single game round, all winnings are added together. All winnings from Features (such as Free Spins), Bonus Games and/or Scatters (if applicable) are also added to way wins. All winning combinations are paid out at the end of a game round. Free Spin features are played with the same bet as the game round that triggered the feature – unless otherwise stated. The bet cannot be changed during a currently running game round. Please refer to the game rules for more information. All wins pay left to right, beginning with the left-most reel. Only the highest win is paid per winning symbol combination.

Game Rules

Slashimi is a 3-reel video slot machine with up to 1000 ways to win!

The Wild symbol substitutes for all symbols (except Scatter) and can appear on all reels.

Before each new spin a random symbol (except Wild or Scatter) is chosen as the Two-for-One symbol. When any instance of the chosen symbol lands, it will split in two. The number of payways available for the Two-for-One symbol therefore increases from 125 (default) to 1000.

Scatter symbols overlay regular symbols and appear on all reels. 3 Scatter symbols trigger 4 Free Spins. Before the feature begins, a Two-for-One symbol must be chosen by the player. In addition to splitting in two, Two-for-One symbols will stick to the reels for the duration of Free Spins. Additional Free Spins can be awarded during Free Spins, with one additional Free Spin awarded for each Scatter symbol that lands during Free Spins. Free Spins are capped to a maximum of 25 spins.

Bets are selected using the bet buttons. Click the plus and minus buttons to change the bet one step at a time. Way wins are awarded for left to right adjacent symbol combinations. To start the round, click SPIN. When the reels stop, the symbols displayed determine your prize according to the paytable.

Any combination of wins resulting from a single game cycle, including the results of any possible triggered bonuses, is capped at a maximum of 5000 times total bet.
