

## Game Rules

### **SPECIAL SYMBOLS AND FEATURES**

#### **WILD SYMBOLS**

There are 5 types of Wild symbols: Stacked, Expanding, Random, Linked and Colossal Wilds. Wild symbols can appear anywhere on the reels. Wilds substitute for all paying symbols and count as the symbol which forms the highest winning combination on a single win line.

During the main game there can be only one of the 5 types of Wild symbols presented in a single spin, but there can be more than one symbol from the same type.

All types of Wild symbol share the same design, but each symbol type has its own colour. Stacked Wild is green, Expanding Wild is pink, Random Wild is red, Linked Wild is light blue and the Colossal Wild is yellow.

#### **STACKED WILD**

This type of Wild symbol is always stacked 3 high, but may land on the reels as a single or double tile. More than one stack of this type can land on the reels in a single spin.

#### **EXPANDING WILD**

When a Wild symbol of this type lands on the reels, it will expand to cover the entire reel.

#### **RANDOM WILD**

When a Wild symbol of this type lands on the reels, it will place between 1 and 9 more Wild symbols of this type randomly on the reels.

#### **LINKED WILD**

When Wild symbols of this type appear on the same horizontal row they transform all symbols between them into Wilds.

#### **COLOSSAL WILD**

This type of Wild appears on the reels as a 2x2 Colossal symbol. The 2x2 Wild may land partially or in full view on the reels.

#### **FREE SPINS**

A Scatter symbol can appear on reels 1 and 5 only. The Scatter symbol is 1x2 tile size and may land partially or in full view on the reels. 2 full-size landed Scatter symbols will activate 10 Free Spins with one of the following randomly selected Wild features active during the entire session – Colossal, Expanding, Stacked, Random or Linked Wilds. During Free Spins, 2 full-size landed Scatter symbols activate 5 additional Free Spins and will add randomly one of the 4 non-active Wild features. The Free Spins can be retrIGGERED until all of the 5 Wild features are activated in a single Free Spins session. After the last retrIGGER possible, the Scatter symbol will no longer appear in the Free Spins.

In Free Spins when two or more Wild features are active in a single spin, the specific order of the animation execution is as follows: Stacked Wild, Colossal Wild and then the rest of the Wilds simultaneously.

## HOW TO PLAY DRUID'S MAGIC™

- Betting

To play the game, you must have sufficient funds to cover your bet. You can see your current BALANCE on your screen.

To start playing, first select the bet value. Click/tap “+” or “-” to increase or reduce the bet or click/tap on the bet value in the middle and select a bet value from a scrollable list. Please note that the selected bet will be applied to each spin. If your balance becomes insufficient to play, you will receive automatic message which says there is "Insufficient funds".

Once you have chosen the bet, click/tap the SPIN button to start playing.

- Spin the Reels

If you are playing on desktop, click the Spin button or press the spacebar to spin.

Speed up each reel spin by pressing spacebar again, or by clicking on the reels. For TURBO SPIN, hold down the spacebar or the Spin button.

- Autoplay

Autoplay allows you to repeat your selected bet for a chosen number of game rounds. To start Autoplay, choose the desired bet value and then click/tap the Autoplay button.

In the Autoplay panel, you can start Autoplay by selecting the number of rounds you want your bet to be repeated for.

Your selected number of Autoplay rounds will be displayed on the Autoplay button. The number of remaining Autoplay rounds will be updated, once Autoplay is started.

Your total Autoplay bet amount is calculated by multiplying the number of Autoplay rounds with the value of your bet. It is indicated under each Autoplay option. The remaining Autoplay bet amount will also be displayed under the chosen Autoplay option, once Autoplay has started.

Your automatic game rounds will continue until either your chosen number of Autoplay rounds are complete, or you choose to stop Autoplay by clicking/tapping STOP.

The Autoplay will stop after a Bonus feature is completed.

While Autoplay is running, it is not possible to change your bet. You need to stop Autoplay to change the bet.

- **Jackpot Game**

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

- **Progressive Jackpot**

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

- General types of games

Check the pays menu in the game payable if you are not sure of the game type.

Winning combinations and payouts are made according to the Paytable.

Symbol payout values shown in the Paytable are dynamic and change in accordance with the selected stake value.

If you are playing a Lines game, the prize value from one payline is equal to the payout advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game.

In case of an incomplete game round due to connection loss where the result has occurred, but the player could not be informed of this fact, the game will inform the player of the outcome upon

refreshing of the game and the result will be visible in the Game History.
