

SPECIAL SYMBOLS AND FEATURES

CHAIN REACTION

Symbols forming wins disappear, making way for new symbols to drop in that may form new wins.

FREE SPINS

3 or more Stone Slabs trigger 3 FREE SPINS. Stone Slabs appear on all reels except the middle one. During the bonus round Gonzita sits on a Golden Throne on the middle reel and no symbols appear on that reel. The Stone Slabs that triggered FREE SPINS are transferred into the bonus round and all other tiles will be destroyed at the start of it.

Only slab symbols may land on the reels during FREE SPINS. Some of these show a stake multiplier prize while others do not. Slabs that do not hold a prize are destroyed making way for new slabs of the same type to land. Each time a Slab holding a prize lands the FREE SPINS counter is reset back to 3.

Initially only Stone Slabs land on the reels. When a reel is filled with Stone Slabs showing stake multiplier prizes, their combined sum is collected on Gonzita's Throne while the slabs are destroyed and only Golden Slabs start landing on that reel.

Similarly, when a reel is filled with Golden Slabs showing stake multiplier prizes their sum is again added to the amount on the throne, the Golden Slabs are destroyed and the same reel starts to cascade only Diamond Slabs.

The FREE SPINS bonus round ends when no slabs of any kind land with a stake multiplier prize for a duration of 3 free spins or when all reels are filled with Diamond Slabs with a stake multiplier prize. At the end of FREE SPINS the total accumulated stake multiplier shown on the top right is paid out. The symbols available during normal game appear again on the next spin after the bonus round.

STONE SLABS

The Stone Slabs are scatter symbols that may land on all reels except the middle one both during normal game and FREE SPINS.

Landing three Stone Slab symbols during normal game triggers FREE SPINS.

The Stone Slabs may appear with the following stake multiplier prizes:

1x, 2x, 5x, 7x

GOLDEN SLABS

The Golden Slabs are scatter symbols which may land on any reel except the middle one and only during FREE SPINS. Golden Slabs appear on a reel only after that reel has been filled with Stone Slabs showing stake multiplier prizes and those prizes have been collected by Gonzita on her throne. The Golden Slabs may appear with the following stake multiplier prizes:

10x, 25x, 50x, 75x

DIAMOND SLABS

The Diamond Slabs are scatter symbols which may land on any reel except the middle one and only during FREE SPINS. Diamond Slabs appear on a reel only after that reel has been filled with Golden Slabs showing stake multiplier prizes and those prizes have been collected by Gonzita on her throne. The Diamond Slabs may appear with the following stake multiplier prizes:

100x, 250x, 500x, 750x

HOW TO PLAY GONZITA'S QUEST™

Total Stake

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or – buttons.
Spin the Reels

If you are playing on desktop, click the Spin button or press the spacebar to spin.

Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. Spin the jackpot wheel to determine which of the offered jackpot tiers will be won. The size of the segments on the jackpot wheel do not correlate to the odds of winning each jackpot tier represented. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game.

In case of an incomplete game round due to connection loss where the result has occurred, but the player could not be informed of this fact, the game will inform the player of the outcome upon refreshing of the game and the result will be visible in the Game History.
