

## SPECIAL SYMBOLS AND FEATURES

### SAKURA MASKS & PRIZE LADDER

3 or more SAKURA MASK scatters of any type anywhere on the reels award a cash prize. The prizes, which represent stake multiplier awards, are shown on the prize ladder above the reels as monetary values.

The required number of masks and the prizes they award are as follows:

3 Masks – 1x

4 Masks – 5x

5 Masks – 15x

6 Masks – 40x

7 Masks – 100x

8 Masks – 500x

9 Masks – 2,000x

10 Masks – 5,000x

If the SAKURA WILD is not present on the middle reel, it's possible for up to 10 SAKURA MASKS to land in the same spin.

### RESPIN SAKURA MASK

The RESPIN SAKURA MASK scatter triggers a RESPIN when it lands. Any SAKURA MASKS on the reels, including the SAKURA WILD (if present) are held for the RESPIN. Only one Respin Sakura mask may land in a spin.

If win lines are formed when the RESPIN mask lands, they will be paid out before the respin. If after the Respin new wins are formed those will be paid out as well and after that the cash prize for the total number of SAKURA MASKS collected in the whole spin will be awarded.

### MULTIPLIER SAKURA MASK

The MULTIPLIER SAKURA MASK scatter lands with x2 or x3 multiplier. The multiplier is applied to any prize that may be achieved on the prize ladder in the same spin. Only one multiplier mask may land in a spin.

### WILD

WILDS substitute for all paying symbols and count as the symbol which forms the highest paying combination on a single win line.

### SAKURA WILD

The SAKURA is a 1x3 SUPER WILD that only lands on the middle reel and always in full view. It counts as 3 SAKURA MASKS when determining the prize from the ladder. If the SAKURA WILD lands, it's possible for up to 7 SAKURA MASKS to land on the reels.

#### FREE SPINS

3 FREE SPINS scatters on reels 1, 3 and 5 trigger 8 FREE SPINS. In the normal game FREE SPINS scatters cannot land together with the SAKURA WILD. In FREE SPINS, 2 FREE SPINS scatters on reels 1 and 5 award a retrigger with 5 FREE SPINS.

At the start of FREE SPINS the SAKURA WILD is locked on the middle reel and remains there until the end of the bonus round.

#### HOW TO PLAY SAKURA MASKS

##### Total Stake

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or – buttons.

##### Spin the Reels

If you are playing on desktop, click the Spin button or press the spacebar to spin.

##### Autoplay

Press the AUTO button to commence automatic play of the game at the currently selected stake. Select how many spins to play via the Total Spins Dropdown menu.

##### More Autoplay settings

Select the loss limit: The Autoplay will stop at the last spin before the loss limit is reached. The Autoplay loss limit should be higher than your stake.

Expand the AUTOPLAY dialog by choosing MORE AUTOPLAY SETTINGS. Here you can select additional criteria for the AUTOPLAY stop including - Stop if single win exceeds certain amount; Stop on Bonus Feature.

##### Gamble Wheel

After a spin which results in a win of more than 0.10 EUR, the "Gamble" button is activated and the player may enter the Gamble game for a chance to increase their win.

The Gamble Wheel offers the player true odds and always plays 100% randomly with 100% RTP. The player can configure the Gamble using the following options:

Pressing the plus button increases the potential win on the ladder and recalculates the wheel's chances. Pressing the minus button decreases the potential win. The green section of the wheel displays the exact chance of winning. The red section displays the exact chance of losing. If the player commits to pressing the Gamble button, the pointer within the wheel will spin. If the pointer lands in the green area, the player wins the highlighted prize which they chose in advance. If the pointer lands on the red area the Gamble is over and the player returns to the slot game.

The player doesn't have to collect the winnings manually. They are auto-collected after every Gamble round. Press the "Collect" button to collect your winnings and return to the slot game.

If the Gamble feature is closed, the player cannot return to the feature unless they win another round in the slot game. The Gamble feature is disabled during auto-play. Jackpot winnings cannot be gambled.

### Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

### Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

### General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the paytable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game.

In case of an incomplete game round due to connection loss where the result has occurred, but the player could not be informed of this fact, the game will inform the player of the outcome upon refreshing of the game and the result will be visible in the Game History.
