• The pays above are the pays awarded at minimum bet. The pays at bets other than minimum bet are calculated by multiplying the bet multiplier by the pays listed above.

# User Interface

'+' / '-' buttons increase / decrease the bet value — the bet value is the total bet per game round.

Starts a game round at the current bet value.

Displays the autoplay options.

Stops the autoplay session.

The numerical value displayed within the button shows the number of autoplay game rounds remaining.

# Bet Definitions

• Current Bet: The current bet is the value that appears above ➕ .

• Minimum Bet: The minimum bet is the lowest possible bet value, which is selected by pressing ➖ until the bet value no longer decreases.

• Bet Multiplier: The bet multiplier is defined as the current bet divided by the minimum bet.

# Autoplay Options

• Autoplay will allow game rounds to be played automatically.

• Click on the Autoplay button and select the number of Autoplay game rounds.

# Additional Information

• The game outcomes are determined by a random number generator that has been certified by an approved test house.

• Misuse and malfunction voids all pays and plays.

• The above 2 points may be subject to further terms, conditions and processes of the gaming site operator.

# Wins

• A winning play occurs when the firecracker explodes.

• 3 to 18 Currency Wins are awarded on a winning play.

# Multiplier Feature

• If 10 or fewer Currency Wins are awarded on any winning play, the Multiplier Feature may randomly be activated.

• If the Multiplier Feature is activated, a random multiplier of x2, x3, x4, x5, or x7 will appear. All Currency Wins will be multiplied by the random multiplier.
