

SPECIAL SYMBOLS AND FEATURES

SHEEP SNATCH

Randomly during a spin a sheep will appear on the screen. The player has to click the sheep and after that the wolf will snatch the sheep and award a modifier for the current spin. Either all occurrences of one low-paying symbol type will be transformed into WILDS for the current spin or a WIN MULTIPLIER of x2 or x3 will be revealed.

Up to 3 sheep may appear consecutively in a single spin. If the sheep reveal multiple multipliers the values will be stacked. The stacked value of the revealed multipliers may not rise above x8. The multiplier resets at the start of the next spin.

If SHEEP SNATCH is triggered but the sheep is not manually clicked by the player after 2 minutes it will be automatically activated and the feature will play out.

WOLF SPINS AND PICKER BONUS

3 or more WOLF SPINS scatters anywhere on the reels trigger the bonus round with 7 FREE SPINS. At the start of the bonus round the player is given the option to pick from 15 sheep for the wolf to snatch. The number of picks available is equal to the number of scatters with which the bonus round has been triggered.

5 of the sheep may reveal a low-paying symbol type which will be transformed into a WILD every time it lands on the reels during the bonus round.

4 of the sheep may award a WINS MULTIPLIER. 2 of those sheep may award a x2 WINS MULTIPLIER and 2 may award a x3 WINS MULTIPLIER. The revealed multipliers stack up to x10 and their combined value is active for the duration of the whole bonus round. The multiplier is applied to all wins during WOLF SPINS.

6 of the sheep may award BONUS SPINS which will be added to the initial number of 7. Of those sheep, 2 may award +2 BONUS SPINS, 2 may award +3 BONUS SPINS and 2 may award +5 BONUS SPINS.

During WOLF SPINS landing a WOLF SPINS scatter awards another pick from the PICKER BONUS. Only sheep which have not been previously picked will be available for snatching.

WILD SHEEP

WILDS only appear through activation of the SHEEP SNATCH feature or if awarded from the WOLF SPINS PICKER BONUS. WILDS substitute for all paying symbols and count as the symbol which forms the longest winning combination on a single win line.

Gamble Wheel

After a spin which results in a win of more than 0.10 EUR, the "Gamble" button is activated and the player may enter the Gamble game for a chance to increase their win.

The Gamble Wheel offers the player true odds and always plays 100% randomly with 100% RTP. The player can configure the Gamble using the following options:

Pressing the plus button increases the potential win on the ladder and recalculates the wheel's chances. Pressing the minus button decreases the potential win. The green section of the wheel displays the exact chance of winning. The red section displays the exact chance of losing. If the player commits to pressing the Gamble button, the pointer within the wheel will spin. If the pointer lands in the green area, the player wins the highlighted prize which they chose in advance. If the pointer lands on the red area the Gamble is over and the player returns to the slot game.

The player doesn't have to collect the winnings manually. They are auto-collected after every Gamble round. Press the "Collect" button to collect your winnings and return to the slot game.

If the Gamble feature is closed, the player cannot return to the feature unless they win another round in the slot game. The Gamble feature is disabled during auto-play.

Jackpot winnings cannot be gambled.
