Information

Way wins are awarded for adjacent symbol combinations, according to the information in the paytable and game rules. When winning on multiple ways in a single game round, all winnings are added together. All winnings from Features (such as Free Spins), Bonus Games and/or Scatters (if applicable) are also added to way wins. All winning combinations are paid out at the end of a game round. Free Spin features are played with the same bet as the game round that triggered the feature – unless otherwise stated. The bet cannot be changed during a currently running game round. Please refer to the game rules for more information. All wins pay left to right, beginning with the left-most reel. Only the highest win is paid per winning symbol combination. Scatter symbol wins (where applicable) pay for any winning combination including any gaps.

Game Rules

Ronin's Honour is a 5-reel video slot game with 243 starting payways and expandable up to 59,049 payways through the mystery mask splitting symbol feature.

All wins pay left to right only beginning on the left most reel and for winning combinations without gaps. SCATTERS pay left to right only but pay from any reel where a winning combination is possible with gaps allowed.

In the base game and BATTLE FREE SPINS, Mask symbols can land during any spin for a mystery symbol feature. Mask symbols will then reveal: paying single weapon symbols, royal symbols or summon stacked ninja WILD symbols that fill the full height of the reel. All revealed mystery weapon or royal symbols will be the same symbol for each mystery feature spin result.

Weapon or royal symbols that are revealed as part of the mystery mask symbol feature may then be split to create additional winning ways on that reel. Revealed weapon or royal symbols can be 1, 2 or 3 ways per symbol position. Stacked ninja WILD symbols that are revealed as part of the mystery mask symbol feature begin as 1 way for that reel and may then be split to 3, 4, 5, 6, 7, 8 or 9 ways per WILD reel.

3+ SCATTERS will trigger BATTLE FREE SPINS. SCATTER symbols cannot land during mystery mask symbol feature spins. SCATTERS cannot land in FREE SPINS rounds and FREE SPINS cannot be retrIGGERED.

During BATTLE FREE SPINS, the same mystery mask symbol feature from the base game can also occur. The player begins BATTLE FREE SPINS with 3 lives and the game enemy(Hannya) has 3 lives. These are represented by meters on the top left and top right of the game. The player (Ronin) will lose 1 life if any single stacked ninja WILD is not split in any given spin. The enemy (Hannya) will lose 1 life if any single stacked ninja WILD is split in any spin.

If the enemy (Hannya) loses all 3 lives during BATTLE FREE SPINS, the player will then play a single enhanced HANNYA FREE SPIN, where a single stacked Hannya WILD will land on reel 3,4 or 5. The stacked Hannya WILD will spawn stacked mystery demon symbols onto reels 1 up to whichever is the left-most adjacent reel to the stacked Hannya WILD. Stacked mystery demon symbols will then all reveal the same weapon or royal symbol with each demon changing to 3 symbol positions per reel. Each revealed symbol can be split from 3 to 9 ways per reel with a max split of 3 ways per individual symbol position. The stacked Hannya WILD begins as 1 way and can be split from 3 to 9 ways with a max split of 3 ways per individual symbol position.

FREE SPINS will continue until: the player has lost all 3 lives, the enemy(Hannya) has lost all 3 lives or the BATTLE FREE SPINS limit has been reached. BATTLE FREE SPINS are capped at 50 spins. If the player reaches 50 FREE SPINS during BATTLE FREE SPINS and does not trigger the Hannya FREE SPIN, then the current BATTLE FREE SPINS round will end. If the enemy(Hannya) loses their final life during final 50th BATTLE FREE SPIN then the player will receive the enhanced Hannya FREE SPIN. The maximum achievable win for a single wager is 30,000x times the bet. The maximum number of 59,049 payways is only achievable during HANNYA FREE SPIN.
