

Mines

About this Game

The goal is to uncover coins and to avoid uncovering any mines.

The game is played on a 5x5 board of tiles.

Uncovering a coin will increase your potential win.

Cashout at any time, claiming your potential win and adding it to your balance.

Uncovering a mine will end the session and you will lose your potential win.

Use the risk control to increase or decrease the risk of the game.

Higher risk awards bigger wins, but places more mines on the board.

A single bet will entitle you to a chance at uncovering the entire board.

Payout Details

The Payout Details for each round are displayed in a banner at the top of the game.

If you have not started a round, the highest potential win is shown, based on the current risk chosen and your bet amount.

During a round, the number of coins remaining on the board is shown.

During a round, your potential win is shown, reflecting how much you will win if you cashout.

During a round, your next win is shown, reflecting how much you could win if you uncover another coin.

Autoplay

You can select which tiles you want to uncover each Autoplay round and the number of games you want to play. You can then start Autoplay.

Autoplay can be activated using the Autoplay button on the console.

Autoplay can be stopped at any time.

Autoplay allows a selected number of rounds to play out automatically.

The number of games remaining in your Autoplay session is displayed.

Autoplay rounds are played at the current selected bet.

Autoplay ends when the selected number of rounds have played out.

Some settings and features may not be available in this game.

Loss Limit: Sets a loss limit for the Autoplay session. Autoplay ends if the balance decreases by this amount.

Win Limit: Sets a win limit for the Autoplay session. Autoplay ends if a single win reaches this amount.
