

SPECIAL SYMBOLS AND FEATURES

MEGAWAYS™

The number of possible win ways varies per spin according to the total number of individual symbols which land on the reels, with a maximum potential of 117,649 MegaWays™ to win!

CHAIN REACTION

Symbols forming wins disappear, making way for new symbols to drop in that may form new wins. There is no limit to the possible chain reactions.

PRIMATE WILD

The PRIMATE WILD is a SUPER WILD symbol which covers an entire reel and always lands in full view. One PRIMATE WILD can land in a spin on reels 2, 3, 4 or 5.

The WILD holds a symbol MULTIPLIER of between x4 and x7. The symbol MULTIPLIER represents how many symbols the SUPER WILD is being counted as in the ways calculation.

If the PRIMATE WILD does not participate in a win when it lands, it will lock on the reel until it forms a win.

When the PRIMATE WILD participates in a win it does not get destroyed. Instead, the symbol MULTIPLIER of the PRIMATE WILD increases by 1.

GOLD COINS AND PRIMATE EVOLUTION

A Primate Evolution progress bar with 3 stages is placed over the 6th reel. Until the last stage of the progress bar is completed, the game is played on 5 reels.

When Gold Coin symbols land anywhere on the reels they are collected and contribute to the Primate Evolution. Collect 30 Gold Coins to complete each stage of the progress bar and evolve the PRIMATE WILD. The rewards for completing each stage are as follows:

Stage #1: Adds one additional Life Point to the PRIMATE WILD. With each Life Point added, the PRIMATE WILD stays for one spin longer on the reels after it forms a win.

Stage #2: Adds one more Life Point to the PRIMATE WILD. Additionally, on the next spin the PRIMATE WILD will destroy the symbol 9 and it will no longer appear on the reels.

Stage #3: Adds one more Life Point to the PRIMATE WILD and unlocks the chance to enter FREE SPINS.

After the last stage of the progress bar is complete, the bar is removed and reveals the 6th reel, where only high-paying symbols and Gold Coin symbols can land.

Gold Coins no longer appear on the first 5 reels after the progress bar is complete. Instead, one Gold Coin symbol may land on the 6th reel.

FREE SPINS

Landing a Gold Coin symbol on the 6th reel when the PRIMATE WILD is present awards 4 FREE SPINS. One additional FREE SPIN is awarded for each remaining Life Point that the PRIMATE WILD has at the point of entering. The maximum number of FREE SPINS is 7, if FREE SPINS are triggered when the PRIMATE WILD still has 3 Life Points remaining.

The PRIMATE WILD remains locked on the reel for the duration of the bonus round. Additionally, at the start of each FREE SPIN the PRIMATE KING may randomly remove the current lowest-paying symbol from the reels for the remaining FREE SPINS until the 10, J and Q symbols are removed.

HOW TO PLAY PRIMATE KING MEGAWAYS™

Game Progress

Any progress features in the game, including symbols locked onto the reels which affect subsequent spins, are saved for your game at the stake level you are playing at.

You can have different progress levels at different stakes on the same game, and move between them by changing the stake.

If you are awarded free spins from a promotional campaign any progress in the main game including any locked symbols, will be saved and be available to continue playing at the same stake once the free spins have been completed.

Please note that this stateful game saves its state forever.

Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. Jackpot prizes are not affected by any game features e.g. multipliers are never applied to jackpots. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any

time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

If you are playing a Lines game, the prize value from one payline is equal to the total stake divided by the number of paylines, multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

Example: Total stake is 2. Total paylines are 20. Symbol multiplier for length of 5 is 300. The win for 1 payline with this symbol and length would be calculated as such: $2 / 20 * 300 = 30$.

If you are playing a Ways, a MegaWays or a Cluster game, the prize value from one way or cluster in a Ways or Winning Clusters game is equal to the stake multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed.

Example: Total stake = 2. Symbol win multiplier = 2. Win = $2 \times 2 = 4$.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.
