Symbol Wins

A win is matching consecutive symbols, regardless of height, from left to right starting from left most reel.

Highest win paid per winning combination. All winning combinations are added together. See PAYS for further information.

Wild Portal

Every spin, a 2x2 Wild Portal may appear on reels 2 to 5.

Wild Portal substitutes for all symbols except Scatter.

After any wins are paid, the Wild Portal will reveal either the Ace, King, Queen, Jack, Ten or Nine.

If there are no instances of the revealed symbol onscreen, the game ends. Otherwise, each instance of the revealed symbol is removed from the screen and increments the Wild Portal Multiplier by one.

New symbols drop in and the Wild Portal may update to reveal a different symbol. The process repeats until no new instances of the revealed symbol occur.

Wins with the Wild Portal substituting are multiplied by the Wild Portal Multiplier. Wild Portal Multiplier starts at x1. Wild Portal Multiplier resets at the end of each spin unless the Free Spins is triggered.

Free Spins

3 or more Scatters in any position award 8 Free Spins, plus 2 for each Scatter beyond the third. A Wild Portal is guaranteed to appear in every Free Spin.

The Wild Portal Multiplier carries over from the triggering game into the Free Spins and may increase throughout the Free Spins.

Free Spins awarded from Win Exchange will always commence with a Wild Portal Multiplier of 1.

3 or more Scatters retrigger the Free Spins, awarding 2 Free Spins plus 2 for each Scatter beyond the third.

The stake that was used to trigger the Free Spins will be used for the Free Spins duration.

At the end of the Free Spins, the total winnings for the spins will be displayed. Any winnings will be credited into the players account and regular play then resumes.

Return to Player (RTP)

The Return to Player (RTP) is the theoretical statistical percentage of the total money bet in a game that is paid out as winnings over time. Values are calculated initially by dividing the total payouts by the total bets from a simulation of numerous game rounds. Values reflect the maximum expected RTP and do not change.

The RTP is defined at different stages or modes of the game.

Overall RTP: 96.58%

Bonus Buy RTP: 96.68%
