

## Game Rules

Super Sic Bo is an exciting game of chance played with three regular dice with face value 1 to 6. The objective of Super Sic Bo is to predict the outcome of the shake of the three dice.

After betting time has expired, the dice are shaken in a dice shaker. A number of bet spots — from zero to several — then have multipliers randomly applied to them before the dice come to rest and the result is known. If the player's bet is placed on the bet spot with the applied multiplier, your bet is multiplied accordingly.

You can place many kinds of bets on the Super Sic Bo table, and each type of bet has its own payout. Your bet is returned on top of your winnings.

- Small/Big** — place your bet on the total of the three dice being Small (4–10) or Big (11–17). Wins pay 1:1, but these bets lose to any Triple.
- Even/Odd** — place your bet on the total of the three dice being Odd or Even. Wins pay 1:1, but these bets lose to any Triple.
- Total** — place your bet on any of the 14 betting areas labelled 4–17. Total is the total of the three dice and excludes 3 and 18. You win if the total of the three dice adds up to the Total number on which you placed your bet. Payouts vary depending on the winning total.
- Single** — place your bet on any of the six betting areas labelled ONE, TWO, THREE, FOUR, FIVE and SIX, which represent the six face values of a dice.
  - If 1 of 3 dice shows the number you bet on, you get paid 1:1.
  - If 2 of 3 dice show the number you bet on, you get paid 2:1.
  - If all 3 dice show the number you bet on, you get paid 3:1.
- Double** — place your bet on any of the six Double-labelled betting areas. To win, 2 of 3 dice must show the same number. Wins pay 8:1. Please note that regardless of whether 2 or 3 dice show the same number, the payout remains the same.

Below the roadmap, you can see the statistics of Small, Big, and Triple bets for the last 50 rounds.

## Payouts

## Super Sic Bo \$1–10,000

To participate in the game, you must have sufficient funds to cover your bets. You can see your current BALANCE on your screen.

BALANCE  
\$100,000

In the Immersive view, the TIMER informs you of the duration of betting time. After it expires, betting is closed and no more bets are accepted.

In the Classic view, the TRAFFIC LIGHTS tell you the current status in the game round by informing you when you can bet (GREEN light), when betting time is nearly over (YELLOW light), and when betting time has expired (RED light).

PLACE YOUR BETS

The CHIP DISPLAY allows you to select the value of each chip you wish to bet. Only chips of denominations that can be covered by your current balance will be enabled.

Once you have selected a chip, place your bet by simply clicking/tapping the appropriate bet spot on the game table. Each time you click/tap the bet spot, the amount of your bet increases by the value of the selected chip or up to the maximum limit for the type of bet you have selected. Once you have bet the maximum limit, no additional funds will be accepted for that bet, and a message will appear above your bet to notify you that you have bet the maximum.

NOTE: Please do not minimise your browser or open any other tab in your browser while betting time remains and you have placed bets on the table. Such actions may be interpreted as leaving the game, and your bets will therefore be declined for that particular game round.

The REPEAT button allows you to repeat all bets from the previous game round. This button is available only before the first chip is placed.

The DOUBLE (2x) button becomes available after you have placed any bet. Each click/tap doubles all your bets up to the maximum limit. Note that you must have a sufficient account balance to double ALL your placed bets.

The UNDO button removes the last bet you placed.

You can click/tap the UNDO button repeatedly to remove bets, one by one, in the reverse order in which they were placed. You can clear all your bets by holding the UNDO button.

The TOTAL BET indicator displays the total amount of all bets placed in the current round.

## Multi-Game Play

If you enjoy non-stop action, you can join more than one game table — then view and play them simultaneously, all in the same browser window!

After you have joined at least one game table, click on LOBBY. In the lobby or game, click the +TABLE button associated with that table to join it. Certain tables may be unavailable for multi-game play and will therefore not display a +TABLE button.

 TABLE

After you have joined multiple tables, you will be able to resize your browser window as a whole, but you will not be able to resize each game table window separately.

You can exit any table without affecting your presence at other tables you have joined. To exit a table, click the X button.

Please note:

- You will automatically exit a table if you join the same table through a different device/browser.
- If you click directly on a table icon instead of the +TABLE button, you will merely *switch* tables instead of joining the chosen table *in addition* to the table you joined previously.

We kindly advise you to join only as many tables as your screen can accommodate while still allowing you to place bets deliberately and accurately.
