

## Sugar Craze Rising Rewards™

### **About this Game**

This is a 5 reel slot game.

All 720 pay ways are permanently enabled.

The objective of the game is to spin the reels so the symbols form winning combinations.

### **General bet and payout rules**

The bet size is the total number of credits bet per spin.

The total number of credits bet per spin is your credits bet multiplied by the bet multiplier. Only the total number of credits bet per spin is displayed in the game.

A bet multiplier of 10 applies per spin.

For example, 0.10 credits x 10 bet multiplier = 1.00 total credits bet per spin.

All paytables display the payout for each symbol combination based on your current bet.

Only the highest winning combination is awarded per symbol combination.

If multiple winning combinations land on a single way, only the highest win is awarded.

Scatter and bonus wins are added to regular wins.

If you have a winning combination, the win is highlighted on the reels. If you do not have a winning combination, the game is over and you can play again.

### **Regular symbols**

Regular symbols are all symbols on the reels that do not have a bonus feature but complete regular winning combinations on enabled pay ways.

Matching regular symbols must be next to each other on an enabled pay way.

Regular winning combinations pay out from left-to-right and right-to-left, starting from the first or fifth slot reel.

Regular payouts depend on your bet per spin.

### **Wild Symbols**

This symbol substitutes for other symbols to complete wins.

This symbol appears on reels 2, 3 and 4 only.

This symbol does not substitute for the scatter or Jackpot Trigger symbols.

This symbol does not create its own winning combination.

### **Rising Rewards™ Jackpot Feature**

The Jackpot Wheel awards 1 of 5 guaranteed jackpots when triggered. Each segment of the wheel is associated with a different jackpot.

Each reel in the game is also associated with one of the jackpots, and the current jackpot amount is displayed above each reel.

Jackpot values increase by 0.5x your bet for each Jackpot Trigger token that lands on the associated reel.

Every Jackpot Trigger token collected has a chance of triggering the Jackpot Wheel on that spin.

Once a jackpot is awarded, that specific jackpot resets to its starting value.

Jackpot values scale with bet changes.

The probability of triggering the Jackpot Wheel can change as the jackpot values change.

This feature cannot trigger at the same time as Free Spins.

This feature can be triggered in the base game and free spins.

The Paytable displays the starting value of each jackpot.

### **Free Spins**

1 or more scatter symbols on every reel triggers this feature.

On the spin that triggered this feature, every scatter symbol that landed awards either 1 additional free spin or increases the Free Spins Multiplier by 1x.

A minimum of 2 scatter symbols will award free spins.

4 free spins are added to what you are awarded.

This feature can be retriggered.

The number of additional free spins awarded when retriggered is equal to the number that started the feature.

The feature retrigger awards 1x your total bet multiplied by the Free Spins Multiplier.

It is not possible to retrigger Free Spins or trigger the Jackpot Wheel on the last spin of Free Spins.

The last bet you placed in the game is used as the free spins bet amount.

Winnings are automatically collected during this feature.

### **Rising Rewards™ Free Spins Multiplier**

The Free Spins Multiplier value is displayed in the Free Spins Multiplier meter.

The value can increase in the base game and when entering Free Spins.

The value increases by 0.5x when scatter symbols land on exactly 4 reels in the base game.
