

SPECIAL SYMBOLS AND FEATURES

FREE SPINS

Landing 3 FREE SPINS scatters on reels 1, 3 and 5 awards 7 FREE SPINS featuring BUGSY'S SPECIAL!
Landing 3 scatters during the last FREE SPIN awards a RETRIGGER with another 7 FREE SPINS and a RETRIGGER of BUGSY'S SPECIAL.

BUGSY'S SPECIAL

During the BUGSY'S SPECIAL feature a mini-slot consisting of 3 liquor shots appears. When the SPIN button is pressed the 3 shots will spin and at the end will reveal a combination of the following modifiers:

BONUS SPINS – one or more shots may award +1, +2 or +3 spins added to the initial count of 7 at the start of FREE SPINS or during a RETRIGGER.

REMOVE SMALL-TIME SYMBOL – one or more shots may land with any of the following symbols: J, Q, K or A. The symbol shown will be removed from the reels for the duration of FREE SPINS and any potential RETRIGGERS, thus once a symbol has been eliminated it will not reappear during a RETRIGGER of BUGSY'S SPECIAL in the same bonus round.

LOCKED WILDS – a single shot may award LOCKED WILDS. All wild symbols that land during the bonus round will remain locked until the end of the bonus round. LOCKED WILDS may be awarded only once per bonus round, no matter how many RETRIGGERS with BUGSY'S SPECIAL occur during it.

SUPER WILD – two of the shots may award SUPER WILDS to appear on the reels during the bonus round. If a single shot has awarded a SUPER WILD only 1 SUPER WILD may land at any time during the bonus round. If 2 shots award a SUPER WILD, 2 SUPER WILDS may appear at any time.

SUPER WILDS may be awarded either all at once in a single occurrence of BUGSY'S SPECIAL or in consecutive RETRIGGERS during a single bonus round.

Once unlocked a SUPER WILD may land at any time during FREE SPINS. Up to 2 SUPER WILDS may land in a spin during FREE SPINS. SUPER WILDS do not appear outside of FREE SPINS.

WINS MULTIPLIER – one or more shots may award a WINS MULTIPLIER which will be active for the whole duration of FREE SPINS and applied to all wins that occur. The possible multiplier values are x2, x3 and x5.

Once a value has been awarded it doesn't appear in the shots during a potential RETRIGGER of BUGSY'S SPECIAL and only the remaining values may be awarded. The multiplier stacks up each time a value has been unlocked, thus the maximum possible multiplier achievable in FREE SPINS is x10. The multiplier is reset at the end of the bonus round.

If through the course of a single bonus round and consecutive retriggers of Buggy's Special all small-time symbols have been eliminated and Locked Wilds, the two Super Wilds and all wins multiplier values have all been awarded, Buggy's Special feature may award only bonus spins for the rest of the same bonus round.

WILD SYMBOL AND SUPER WILDS

Wilds substitute for all paying symbols and count as the symbol which forms the longest winning combination on a single pay line. 1x1 WILDS appear during both the normal game and FREE SPINS.

SUPER WILDS are 1x4 wilds which always land in full view on the reels. SUPER WILDS may appear only during FREE SPINS if awarded from BUGSY'S SPECIAL. SUPER WILDS may appear only on the 2nd and 4th reel.

Expand the AUTOPLAY dialog by choosing MORE AUTOPLAY SETTINGS. Here you can select additional criteria for the AUTOPLAY stop including - Stop if single win exceeds certain amount; Stop on Bonus Feature.

Gamble Wheel

After a spin which results in a win of more than 0.10 GBP, the "Gamble" button is activated and the player may enter the Gamble game for a chance to increase their win.

The Gamble Wheel offers the player true odds and always plays 100% randomly with 100% RTP. The player can configure the Gamble using the following options:

Pressing the plus button increases the potential win on the ladder and recalculates the wheel's chances. Pressing the minus button decreases the potential win. The green section of the wheel displays the exact chance of winning. The red section displays the exact chance of losing. If the player commits to pressing the Gamble button, the pointer within the wheel will spin. If the pointer lands in the green area, the player wins the highlighted prize which they chose in advance. If the pointer lands on the red area the Gamble is over and the player returns to the slot game.

The player doesn't have to collect the winnings manually. They are auto-collected after every Gamble round. Press the "Collect" button to collect your winnings and return to the slot game.

If the Gamble feature is closed, the player cannot return to the feature unless they win another round in the slot game. The Gamble feature is disabled during auto-play. Jackpot winnings cannot be gambled.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the paytable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.
