Game Rules

This game is based around the Powerful Aztec God Quetzalcoatl, the Feathered Serpent. The Aztec God may improve the spin by randomly adding 1 of 3 features: Path of the Gods, adding random wilds across to the reels, Heaven Ascension, turning an entire reel wild or Mighty God, stretching the reels, 5x3, vertically to become 5x6, adding 30 additional paylines. During Base Game, the Aztec God may award one of the three possible features with the possibility of adding additional feature(s). During the Free Spin Bonus, feature happens more frequently with the possibility of the Aztec God triggering a second or third feature in that same single free spin. Also during free spins, God may award additional free spins randomly.

Please note that the features are shown to the player only if there is a win.
