

SPECIAL SYMBOLS AND FEATURES

ZAIDA

Randomly Zaida, who is placed behind the slot, may activate and trigger a RANDOM FEATURE that will last for a duration of 5 consecutive paid spins with the current stake. The available features are REMOVE SYMBOLS, WILD ABUNDANCE and MULTIPLICATION.

REMOVE SYMBOLS

When triggered one symbol type will be removed from the reels for the next 5 consecutive spins in the following order: 10, J, Q, K, A.

All removed symbols are available to land again after the feature ends.

WILD ABUNDANCE

When triggered 1 or 2 LOCKED WILDS will land on the slot on each spin for the next 5 consecutive spins for up to 10 possible LOCKED WILDS present on the 5th spin. The LOCKED WILDS will be unlocked after the 5th spin.

MULTIPLICATION

When triggered a MULTIPLIER will become active above the slot and be applied to all wins occurring in the next 5 spins. This MULTIPLIER rises on each of those spins by +1 or +2 to up to x10. The MULTIPLIER is removed from the slot after the 5th spin.

FORTUNE SPINS

3 FORTUNE SPINS scatters on reels 1, 3 and 5 trigger 5 FREE SPINS. At the start of the bonus round Zaida shuffles 3 cards, each representing one of the features available in the normal game. The player must pick one and will have that revealed feature active for the duration of FORTUNE SPINS. All features act the same as in the normal game.

After the last FREE SPIN the player will be granted the opportunity to pick again. The previously picked card will become a "COLLECT" card and will be shuffled back with the remaining feature cards. Then if the player picks the "COLLECT" card the bonus ends and all wins accumulated during the bonus round will be paid out.

If the player picks a feature card the bonus round continues with 5 more FREE SPINS, in which the newly picked feature becomes active in addition to the one awarded from the previous pick. The result of the previously picked feature remains unchanged after each RETRIGGER.

Ultimately the player may RETRIGGER FORTUNE SPINS twice for a total possible 15 FORTUNE SPINS and have all of the 3 features active after the second RETRIGGER. All active features are deactivated at the end of the bonus round.

HOW TO PLAY ZAIDA'S FORTUNE

Game Progress

Any progress features in the game, including symbols locked onto the reels which affect subsequent spins, are saved for your game at the stake level you are playing at.

You can have different progress levels at different stakes on the same game, and move between them by changing the stake.

If you are awarded free spins from a promotional campaign any progress in the main game including any locked symbols, will be saved and be available to continue playing at the same stake once the free spins have been completed.

Please note that this stateful game saves its state forever.

Total Stake

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or – buttons.

Spin the Reels

If you are playing on desktop, click the Spin button or press the spacebar to spin.

Speed up each reel spin by pressing spacebar again, or by clicking on the reels. For TURBO SPIN, hold down the spacebar or the Spin button.

Autoplay

Press the AUTO button to commence automatic play of the game at the currently selected stake. Select how many spins to play via the Total Spins Dropdown menu.

More Autoplay settings

Select the loss limit: The Autoplay will stop at the last spin before the loss limit is reached. The Autoplay loss limit should be higher than your stake.

Expand the AUTOPLAY dialog by choosing MORE AUTOPLAY SETTINGS. Here you can select additional criteria for the AUTOPLAY stop including - Stop if single win exceeds certain amount; Stop on Bonus Feature.

Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game.

In case of an incomplete game round due to connection loss where the result has occurred, but the

player could not be informed of this fact, the game will inform the player of the outcome upon refreshing of the game and the result will be visible in the Game History.
