

Wild Scoops - Tap n Cash™

About this Game

The goal is to remove the ice cream wrapper from the ice cream, revealing your prizes.

The game consists of 17 prize nodes and 1 bonus node.

Removing the wrapper reveals 2 - 10 nodes at random.

Prize nodes award you with cash prizes.

The Bonus node awards you with free plays.

The amounts shown in prize nodes are calculated off of your bet value.

Free Plays

Free plays can be won by revealing the bonus node in the base game.

At the start of the feature you will be awarded a random number of free plays and a random multiplier.

You will receive 6, 8, 10, or 12 free plays.

You will receive a 2x, 3x, 4x, 5x, or 10x multiplier.

The game will automatically play out the number of free plays you received and, during these free plays, all prize nodes will be multiplied by the multiplier you received.

You will return to the base game at the end of free plays.

During free plays the bonus node will be replaced by a prize node.

Wins awarded during the feature are added to base game wins.

Free plays cannot be retrigged during free plays.

Free plays are played at the bet selected when the bonus feature is triggered.

Free plays awarded will play out automatically.

Autoplay

Autoplay can be activated using the Autoplay button on the console.

Autoplay can be stopped at any time.

You can select the number of games you want to play. You can then start Autoplay.
