

SPECIAL SYMBOLS AND FEATURES

WILD

Wilds substitute for all paying symbols and count as the symbol which forms the longest winning combination on a single pay line.

TREASURE BOX

Treasure Boxes are scatters that may land anywhere on the reels. They do not participate in win lines and instead hold a monetary value representing a cash prize of between 2x and 20x your current stake. The boxes may reveal any prize in that range. Landing 2 boxes awards the combined prize they reveal.

HOLD & RESPIN

Landing 3 Treasure Boxes anywhere on the reels starts the HOLD & RESPIN feature with 3 FREE RESPINS. Landing 4 boxes grants 4 FREE RESPINS. Landing 5 boxes grants 5 FREE RESPINS.

During HOLD & RESPIN all Treasure boxes that triggered the feature will be locked in place and RESPINS with only Treasure box symbols will begin. Each new Treasure Box that lands on an empty position reveals a prize and resets the counter back to the initial number. Each time a new box lands on an already revealed prize it doubles that prize. Boxes that land on an already occupied prize position do not reset the RESPINS counter.

The HOLD & RESPIN bonus round ends if no new Treasure Boxes land on an empty position for the duration of the count of RESPINS awarded at the start of the round. If all positions on the reels are occupied by a prize any remaining RESPINS will be played out to see if any boxes will land to double a prize.

At the end of the bonus round the total sum of all prizes present on the reel is paid out. Ending the bonus round with a full screen of prizes doubles the total accumulated prize.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.
