

SPECIAL SYMBOLS AND FEATURES

CHAIN REACTION

Symbols forming wins disappear, making way for new symbols to drop in that may form new wins.

WILD

The WILD substitutes for all paying symbols and can land only on reels 2, 3 and 4.

CANNONBALL LADDER

A ladder with 9 levels appears to the right of the reels in the normal game. Forming a win screen in a spin activates 1 step of the ladder. Starting from the 3rd step of the ladder each consecutive win awards a pick in the CANNONBALL BONUS. The picks awarded at the upper steps of the ladder also have a MULTIPLIER. The awards on the ladder are as follows:

Step 3 - One pick

Step 4 - One pick with x3 MULTIPLIER

Step 5 - One pick with x5 MULTIPLIER

Step 6 - One pick with x10 MULTIPLIER

Step 7 - One pick with x20 MULTIPLIER

Step 8 - One pick with x50 MULTIPLIER

Step 9 and more - One pick with x100 MULTIPLIER

The progress on the ladder is reset on each spin.

CANNONBALL BONUS

The CANNONBALL BONUS activates after all chain reactions in a spin, where picks that have been awarded end. At the start of the bonus round all symbol positions on the reels turn into pickable cannon muzzles.

The player plays out all picks earned from the Cannonball Ladder in the order they have been awarded. Picking a muzzle reveals a random CASH PRIZE representing a stake MULTIPLIER. Picks associated with a MULTIPLIER have that MULTIPLIER applied to the CASH PRIZE they reveal.

There are 15 prizes in total available in the bonus round:

4 prizes of 1x the current stake

3 prizes of 2x the current stake

2 prizes of 3x the current stake

3 prizes of 5x the current stake

1 prize of 10x the current stake

1 prize of 15x the current stake

1 prize of 25x the current stake

FREE SPINS

Landing 2 FREE SPINS scatters on reels 1 and 5 trigger 8 FREE SPINS. Landing 2 FREE SPINS scatters in FREE SPINS awards 8 additional spins.

In FREE SPINS the WILDS do not disappear. Instead, on each spin, after wins are paid, all WILDS that appeared are merged on the central position of the 3rd reel and stay locked there for the

duration of the bonus round. Each WILD that merges after the first one increases the symbol MULTIPLIER of the centre WILD by 1 for the duration of FREE SPINS. The WILD counts for as many symbols as the MULTIPLIER displayed in the win ways calculation. The CANNONBALL BONUS is not active in FREE SPINS.

HOW TO PLAY CANNONBALL CASH

Total Stake

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or – buttons.

Spin the Reels

If you are playing on desktop, click the Spin button or press the spacebar to spin. Speed up each reel spin by pressing spacebar again, or by clicking on the reels. For TURBO SPIN, hold down the spacebar or the Spin button.

Autoplay

Press the AUTO button to commence automatic play of the game at the currently selected stake. Select how many spins to play via the Total Spins Dropdown menu.

More Autoplay settings

Select the loss limit: The Autoplay will stop at the last spin before the loss limit is reached. The Autoplay loss limit should be higher than your stake.

Expand the AUTOPLAY dialog by choosing MORE AUTOPLAY SETTINGS. Here you can select additional criteria for the AUTOPLAY stop including - Stop if single win exceeds certain amount; Stop on Bonus Feature.

Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

If you are playing a Lines game, the prize value from one payline is equal to the total stake divided by the number of paylines, multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

Example: Total stake is 2. Total paylines are 20. Symbol multiplier for length of 5 is 300. The win for 1 payline with this symbol and length would be calculated as such: $2 / 20 * 300 = 30$.

If you are playing a Ways, a MegaWays or a Cluster game, the prize value from one way or cluster in a Ways or Winning Clusters game is equal to the stake multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed.

Example: Total stake = 2. Symbol win multiplier = 2. Win = $2 \times 2 = 4$.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game.

In case of an incomplete game round due to connection loss where the result has occurred, but the player could not be informed of this fact, the game will inform the player of the outcome upon refreshing of the game and the result will be visible in the Game History.

For the best gaming experience, use of the latest version of software is recommended.
Malfunction voids all pays and plays.

RTP \approx XX.XX% which includes base game RTP and jackpot contribution.
