Jackpot Rules

- The current jackpot value for each type of jackpot is displayed in the main game, in Free Spins and in the Cash Stacker™ feature at all times.
- The Mega Jackpot is a progressive jackpot, where every time the game is played by a player a portion of the bet is added to the Mega Jackpot.
- There is no upper limit on Mega Jackpot values.
- Mega Jackpot wins are subject to verification by the Operator and the Software Supplier. All decisions are final and no correspondence will be entered into.
- Mega Jackpot values displayed in the game are delayed by up to 30 seconds. On exceptionally rare occasions, it may happen that two Mega Jackpots are won within those 30 seconds, in which case the win of the second Mega Jackpot is the new re-seeded Mega Jackpot. All players playing the game when a Mega Jackpot is won will receive a notification within 30 seconds about the Mega Jackpot amount being won.
- When one game round makes a claim for a certain Mega Jackpot, it is locked for that game round and simultaneously assured that no other game round can claim the same Mega Jackpot. Therefore, it is technically not possible to have two simultaneous wins of the same Mega Jackpot.
- If the communication between the Operator and the Jackpot server fails, the game becomes unavailable. There will be no contributions or claims towards the Mega Jackpot. The Mega Jackpot amount remains the same until the communication is resumed.
- The Mega Jackpot amount paid out is the Mega Jackpot value on the operator's server when a Mega Jackpot is won. Every effort is made to ensure that the Mega Jackpot value displayed in the game is the same as the one on the operator's server.
- The Mega Jackpot value might be displayed in a currency other than that you are playing in. If you win a Mega Jackpot and are playing with a different currency, the amount won is converted to the currency in which you are playing and is added to your account.
- 3.7% of the bet are contributed to the Mega Jackpot. 20% of the contributions are set aside for the next Mega Jackpot.
- The Mega Jackpot cannot be won when PLAYING FOR FUN or during Free Rounds.
