

SPECIAL SYMBOLS AND FEATURES

TUBE SYMBOLS

Each spin is numbered from 1 to 10, indicated by a counter above the reels. TUBE symbols may appear on every spin except the 10th and will leave behind a Golden frame if they do. The frames stay locked on their position until the 10th spin. TUBE symbols are scatters.

If a TUBE symbol lands on a Golden frame it will duplicate it on another random tile position that does not already have a frame on it. On every 10th spin TRAIN ARRIVAL occurs and activates a feature that is applied on all positions with a frame present.

In a normal game, symbols that land inside a Golden frame on spins 1 through 9, inclusive, do not participate in win ways.

TRAIN ARRIVAL

The train only arrives on every 10th spin if at least one frame is present on the reels and awards one of the following features:

WILDS – all frames are turned into WILDS which substitute for all paying symbols and count as the symbol which forms the longest winning combination on a single win way.

In case a win way only consists of Wild symbols, only the advertised payment for the length of 5x Wild in a win way will be paid out for that way.

WAYS MULTIPLIER – multipliers are applied at random on every tile position with a frame present. The symbol that has landed on such a position is then counted in the ways calculation as the same number of symbols as the multiplier shows. The available multiplier values are 2x, 3x, 5x, 7x and 10x.

CASH PRIZE – random instant stake multiplier rewards represented by a monetary value appear on every frame and their combined sum is paid out immediately. The available stake multipliers are 1x, 2x, 3x, 5x, 7x, 10x, 15x, 20x, 25x and 50x.

FREE SPINS

3 or more Train scatters trigger FREE SPINS. One scatter may land per reel and each awards 3 FREE SPINS for a minimum of 9 and a maximum of 15 initial FREE SPINS. The bonus round starts with 3 Golden frames always present on the reels. They may change their position on each spin.

WILDS, CASH PRIZE or WAYS MULTIPLIER features are triggered at random at the end of each spin during the bonus round on all frame positions.

During the bonus round a single scatter may land in the spin. Every time a scatter lands it moves the train to the next station. The train's movement is shown above the reels and each third station is marked with a "BONUS!". Whenever a bonus station is reached one of the following bonuses is awarded:

Between 3 and 5 BONUS SPINS

1 or 2 ADDITIONAL GOLDEN FRAMES added to the reels until the end of the bonus round.

WINS MULTIPLIER of either x1, x2 or x3 applied to all wins. The multiplier values may stack up and the multiplier is not reset until the end of the bonus round.

After the bonus round ends, the player returns to the base game at the status they had achieved before entering FREE SPINS.

HOW TO PLAY LONDON TUBE

Game Progress

Any progress features in the game, including symbols locked onto the reels which affect subsequent spins, are saved for your game at the stake level you are playing at.

You can have different progress levels at different stakes on the same game, and move between them by changing the stake.

If you are awarded free spins from a promotional campaign any progress in the main game including any locked symbols, will be saved and be available to continue playing at the same stake once the free spins have been completed.

Gamble Wheel

After a spin which results in a win of more than 0.10 EUR, the "Gamble" button is activated and the player may enter the Gamble game for a chance to increase their win.

The Gamble Wheel offers the player true odds and always plays 100% randomly with 100% RTP. The player can configure the Gamble using the following options:

Pressing the plus button increases the potential win on the ladder and recalculates the wheel's chances. Pressing the minus button decreases the potential win. The green section of the wheel displays the exact chance of winning. The red section displays the exact chance of losing. If the player commits to pressing the Gamble button, the pointer within the wheel will spin. If the pointer lands in the green area, the player wins the highlighted prize which they chose in advance. If the pointer lands on the red area the Gamble is over and the player returns to the slot game.

The player doesn't have to collect the winnings manually. They are auto-collected after every Gamble round. Press the "Collect" button to collect your winnings and return to the slot game.

If the Gamble feature is closed, the player cannot return to the feature unless they win another round in the slot game. The Gamble feature is disabled during auto-play. Jackpot winnings cannot be gambled.

If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.
