

# Rise of Athena

## Unfinished Games

If your game round is disrupted, all game information and placed bets are stored until you re-open the game. You may continue your unfinished round from the point of interruption. Unresolved bets placed but remaining undecided in incomplete games will become void after 30 days. Malfunction voids all pays and plays.

## Information

Payline wins occur on the number of selected paylines, according to the information in the paytable and game rules. When winning on multiple paylines in a single game round, all winnings are added together. All winnings from Features (such as Free Spins), Bonus Games and/or Scatters (if applicable) are also added to payline wins. All winning combinations are paid out at the end of a game round. Free Spin features are played with the same bet and same number of selected lines as the game round that triggered the feature – unless otherwise stated. The bet cannot be changed during a currently running game round. Please refer to the game rules for more information. All wins pay left to right, beginning with the left-most reel. Symbol wins pay for any winning payline combination without any gaps. Only the highest win is paid per active win line. Scatter symbol wins (where applicable) pay for any winning combination including any gaps.

## Game Rules

Rise of Athena is a 5-reel video slot machine with 10 fixed paylines.

The Wild symbol substitutes for all symbols except Scatter, and appears only on reels 2, 3, and 4. Each Wild provides a x1, x2 or x3 multiplier. Multipliers accumulate when more than one Wild is present on a payline – resulting in a maximum multiplier of x27.

3 or more Scatter symbols award 12 Free Spins. Wild symbols are sticky, until their multiplier runs out. The multiplier on each Wild reduces by 1 between each spin. Once no multiplier remains, the respective Wild symbol is removed from the reels. Additional free spins cannot be won; the Scatter symbol is not present in Free Spins.

Bets are selected using the bet buttons. Click the plus and minus buttons to change the bet one step at a time. To start the round, click SPIN. When the reels stop, the symbols displayed determine your prize according to the paytable.

Any combination of wins resulting from a single game cycle, including the results of any possible triggered bonuses, is capped at a maximum of 5000 times total bet.
