Turbo

Press the TURBO button to shorten the spin duration.

Sound

Press the SOUND button to activate or deactivate the game sounds.

Game features**THE TWINS FEATURE**

The twins symbol triggers a reel expansion depending on which edge of the reels it lands. It can only land on the top horizontal edge and right vertical edge.

If the twins symbol lands on the top horizontal edge it expands the reels up by one and if it lands on the right vertical edge then it expands the reels to the right by one.

If the symbol lands on the top right corner of the grid then the reels will expand randomly either up or to the right by one.

The largest the reels can expand is 6x8 and if the reels are at the max then no twins symbols will land.

A Ruby Queen symbol with internally facing arrows on it will reset the grid to 4x4.

CHESHIRE CAT WILD

The Cheshire cat wild symbol may land randomly occupying a single-position or a 2x2.

The Wild symbol substitutes all symbols except the Ruby Queen symbol, Mad Hatter symbol and the twins symbol.

MAD HATTER MULTIPLIER BONUS

Landing 3 or more Mad Hatter symbols anywhere on the reels will trigger the mad hatter multiplier bonus game followed by the free spins feature.

Pick cards to reveal their suit to activate the matching suit on a column leading to a multiplier value. When completing an entire column the free spins feature will be triggered and all wins will be multiplied by the multiplier value of the completed column.

Multiplier values are 1, 2, 3, 5, 10, 20 time the current bet.

RUBY QUEEN OF FREE SPINS

landing 1 or more Ruby Queen symbol on reels 2, 4 and/or 6 to trigger the Ruby Queen of Free Spins feature.

Each Ruby Queen symbol carries a number between 0 to 9. The number of awarded free spins is the number created by the digits appearing on each ruby queen symbol starting from left to right.

If a single queen lands on the reels, it will carry a number from 0 to 9.

If two queens land on the reels, the first one will be 0-3 and the second one 0-9, awarding 0-39 spins.

If three queens land on the reels, the first one will be 0-3, the other two 0-9, awarding 0-399 spins.

Up to 399 free spins can be awarded.

Free spins can be retriggered the same way they are triggered during the base game.

RTP

The overall theoretical Return to Player (RTP) is 93.05%

In the event of a non-responsive game or problem during a spin, the game will repeat the incomplete spin and display the result to the player when the game is next launched.

Incomplete games will be automatically resolved after 2 days. Any winnings resulting from automatic resolve will be paid to the player's account.

Malfunction voids all pays and plays.
