

King of Alexandria™

### **About this Game**

This is a 5 reel 3 row video slot game.

The objective of the game is to spin the reels so the symbols land in different combinations.

Winning combinations are highlighted on the reels and a payout is awarded.

### **Playing the Game**

The balance is displayed in currency and is available in the console bar.

Select the spin button to spin the reels.

Select the stop button to stop the current reel spin. This can also be done by selecting the reels. This does not influence the results of the spin.

Once the reels stop, winning combinations are highlighted. The win amount is displayed in the win box.

If there is no winning combination, the game is completed.

### **Payline Rules**

The number of paylines played is fixed.

A payline is a pattern of adjacent symbol positions that runs in a line across the reels.

Payline wins run from left to right and right to left, starting from the first and last reel respectively.

Payline win payouts are based on the initial bet placed.

This game includes 10 paylines.

Total bet is 10X the bet per line.

All line wins are multiplied by the bet per line.

### **Payout Rules**

The payout value is based on the winning combination formed.

Only the highest winning combination is awarded per symbol combination.

The Paytable displays the payout for each symbol combination based on the current bet.

If multiple winning combinations land on a single payline, only the highest win is awarded.

The total payout is the sum of all payline wins resulting from a spin.

### **Wild Symbols**

The Wild symbol can only appear on reels 2, 3, and 4.

The Wild symbol can substitute for all symbols except the Jackpot Trigger symbol.

Upon landing, the Wild symbol expands to cover the entire reel.

### **Respin Feature**

1 or more Wild symbols appearing anywhere on reels 2, 3, or 4 activates the Respin feature.

1 Free Respin is awarded.

The respins awarded will play out automatically.

During the Respin feature, the Wild symbol expands to cover the entire reel and locks in place while the other reels respin.

If a new Wild symbol lands during a respin, it expands and locks along with any previously expanded Wild symbols for another respin.

Up to 2 additional Wild symbols can appear after a Wild symbol activates a respin, triggering an additional respin, for a maximum of 3 respins.

The Respin feature ends when no new Wild symbols appear during a respin.

All bets and lines played are the same as the spin that triggered the Respin feature.

Jackpot Trigger symbols do not appear during the Respin feature.

Wild symbols are available during the base game and the Respin feature.

All wins are awarded once the feature is complete.

### **Jackpot Wheel**

Jackpot Trigger symbols may appear over all symbols except the Wild symbol.

The Jackpot Trigger symbols only appear on reels 2, 3, and 4.

Collecting Jackpot Trigger symbols grants a chance of triggering a spin of the Jackpot Wheel.

Only the Jackpot Trigger symbols collected on the current spin contribute to the chance of triggering a jackpot.

The Jackpot Wheel awards 1 of 4 guaranteed jackpots.

The Jackpot Wheel consists of a wheel divided into coloured segments. Each segment is associated with a different jackpot.

The landing wheel segment will award the associated jackpot.

If you activate the Jackpot Wheel and the Respin feature, the Jackpot Wheel activates first. Then the Respin feature activates. Wins from both are then added to your winnings.

The graphical collection pot in the game is purely for visual entertainment and as such does not influence awarding a jackpot.
