

Game Basics

Twister is a 4-reel, 6-row video slot with the Avalanche™ feature, a Twister Spinner with 4 different features, Free Spins with a progressive multiplier, and the Buy Feature.

The main game is played with 1296 bet ways and different bet values. Matching symbols in any position on three or more adjacent reels, starting from the leftmost reel to the rightmost reel, without gaps, results in a bet way win. More bet way wins are created when additional instances of the symbol appear on the same reels that create the longest bet way win. Only the longest matching combination per symbol is paid. Simultaneous wins on different bet ways are added.

A bet way win is equal to the value shown in the Paytable. Symbol payout values shown in the Paytable are dynamic and change in accordance with the selected bet value.

Bet Ways Calculation Example

The longest winning combination of the J symbols is 4 symbols on reels 1–4. The number of winning bet ways is calculated by multiplying the number of J symbols on each of these reels: $3 \times 1 \times 1 \times 3 = 9$ winning bet ways.

Avalanche™ Feature

A bet way win appearing on the reels starts an Avalanche™. Symbols in winning combinations disappear, leaving space for a new Avalanche of symbols. The Avalanches continue until there are no more wins on the reels.

Twister Spinners

Twister Spinners can appear anywhere on the reels in the main game and in Free Spins. When a Twister Spinner symbol lands on the reels, it triggers the Twister Spinner wheel, which consists of 4 sections divided by body parts, with 4 colours in each section. Each body part represents a different type of Wild symbol, and each colour represents the intensity of the Wild symbol.

Wild symbols substitute for all symbols except for the Scatter symbols. Wild symbol substitution pays the highest possible winning combination on a bet line, according to the Paytable.

Body part	Action
Left foot	Transforms the Twister Spinner into an Upgrade Wild that upgrades all Low Win symbols of a single type on the reels to Medium Win symbols depending on the colour on the Twister Spinner. All Low win symbols of the same type will change and the feature does not affect new symbols that avalanched in.
Right foot	Transforms the Twister Spinner into a Multiplier Wild with a value depending on the colour of the Twister Spinner (blue — 2, green— 3, yellow — 4, red — 5). The Multiplier Wild multiplies the number of bet ways that go through it with the multiplier value.
Right hand	Transforms the Twister Spinner into a Locked Wild that will remain on the reels for a set number of Avalanches depending on the colour of the Twister Spinner (blue — 2, green — 3, yellow — 4, red — 5). The Locked Wild may move down the reel during an Avalanche and disappear from the reels after the set number of Avalanches determined by the colour. Locked Wilds do not stay on the reels between spins.
Left hand	Transforms the Twister Spinner into a Random Wild and places more Random Wilds on the reels depending on the colour of the Twister Spinner (blue — 2, green — 3, yellow — 4, red — 5 total Random Wilds placed on the reels). Two Random Wilds cannot be placed on the same position.

Free Spins

3 or 4 Scatter symbols appearing anywhere on the reels in the main game activate 6 or 11 Free Spins, while 2, 3 or 4 Scatter symbols appearing on the reels in Free Spins award 1, 2 or 4 additional Free Spins accordingly.

At the beginning of Free Spins, a progressive multiplier of x1 appears on the play area and increases by +x1 for each Twister Spinner that lands on the reels. All wins get multiplied by the current progressive multiplier value, and the value increases before any win evaluations are done during that Avalanche. The progressive multiplier stays on the play area until the end of Free Spins.

Free Spins are played at the same bet as the round that activated Free Spins. At the end of Free Spins, the total win from Free Spins is added to any wins from the round that activated Free Spins, and the game returns to the round that activated Free Spins.

Buy Feature

Free Spins can be activated with the Buy Feature at any time.

Free Spins can be activated with the Buy Feature for 100 times the bet.

When Free Spins are activated with the Buy Feature, one free main game spin without winning combinations or Twister Spinners and guaranteed to have 3 or 4 Scatter symbols that activate 6 or 11 Free Spins is played.

Return to Player

The theoretical return to player for this game is XX.XX%.

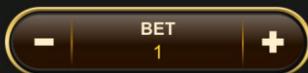

The theoretical return to player in the Buy Feature is XX.XX%.
