

SPECIAL SYMBOLS AND FEATURES

WIN EXCHANGE™

When you win 100x your stake or more, you have the option to exchange 100x your stake for a CARTEL SPINS bonus round while collecting any remaining winnings.

When you win between 30x and 100x your stake, you have the option to exchange the entire win amount for the chance to be awarded the CARTEL SPINS bonus round. The chance of winning the gamble is shown in green on a wheel. The bigger the green segments, the higher your chance to win. If you land on a red segment, you lose.

CARTEL SPINS

3 CARTEL SPINS scatters on reels 1, 3 and 5 trigger the bonus round with 3 initial cartel spins.

CARTEL SPINS starts with the Cartel Leaders (2x2 Super Tiles) locked in the 4 corners of the slot. During the bonus round the slot scene is size 10x10 and only Mystery Territory, The Phone and The Plane symbols appear on the reels.

During CARTEL SPINS each Cartel Leader will have a territory that expands when Mystery Territory symbols land adjacent to a Leader or Marked Territory symbols.

If the The Phone or The Plane symbols are activated or any Mystery Territory symbols are locked during a spin, the CARTEL SPINS are reset to the initial 3 CARTEL SPINS.

Each Marked Territory symbol will increase a global stake multiplier by the amount displayed on the symbol. The maximum possible total multiplier is 10,500x. At the end of the bonus round the total accumulated multiplier will be paid out.

When the screen has been filled and no more Mystery Territory symbols can land, the bonus round will end.

MYSTERY TERRITORY SYMBOL

Only appears during CARTEL SPINS. Mystery Territory symbols that land adjacent to a Cartel Leader become Marked territory symbols of the Leader's colour, stay locked for the duration of the bonus round and expand his territory.

Further expansions are made when new Mystery Territory symbols land adjacent to one of the territories.

Additionally, all coloured Territory symbols will display an initial multiplier between 1x and 5x that contributes to the total win multiplier that is paid out at the end of the bonus round.

CARTEL WAR

When a Mystery Territory symbol or several adjacent Mystery Territory symbols land adjacent to two or more rival territories, a CARTEL WAR is triggered. The Leader with the biggest territory will win the clash. The size of a Cartel Leader's territory is determined by the number of locked Marked Territory symbols of the corresponding leader's colour.

Since Cartel Leaders are 2x2 symbols they each count as 4 Territory symbols and contribute to their respective territory by that number. The total value of a Leader's territory is displayed on the leader during the Cartel War. The winning Cartel Leader will acquire the territory of the rival Cartel Leaders.

If the clashing Leaders have territories of the same size, the winner is determined randomly.

CARTEL CONNECTIONS

The Phone Symbol

If the Phone symbol lands adjacent to a Cartel Leader or marked territory, it will activate and double all multiplier values present in that territory. The Phone will not activate if no multipliers are present on adjacent territories.

The Phone feature will activate after the Plane feature.

If the Phone lands adjacent to more than one territory, all adjacent territories will benefit from the boost.

The Plane Symbol

If a Plane symbol lands adjacent to a Cartel Leader or marked territory, it will activate and increase the multiplier values present in that territory with a random amount between 1 and 5. The Plane will not activate if no multipliers are present on adjacent territories.

The Plane feature will activate before The Phone feature.

If The Plane lands adjacent to more than one territory, all adjacent territories will benefit from the boost.

WILDS only land on reels 2, 3 and 4.

WILD symbols substitute for all paying symbols.

The Gamble Wheel offers the player true odds and always plays 100% randomly with 100% RTP. The player can configure the Gamble using the following options:

Pressing the plus button increases the potential win on the ladder and recalculates the wheel's chances. Pressing the minus button decreases the potential win. General types of games

Check the pays menu in the game paytable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

The prize value from one payline is equal to the total stake divided by the number of paylines, multiplied by the symbol multiplier advertised in the paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

Example: Total stake is 2. Total paylines are 20. Symbol multiplier for length of 5 is 300. The win for 1 payline with this symbol and length would be calculated as such: $2 / 20 * 300 = 30$.

The prize value from one payline in a Multiline game is equal to the stake multiplied by the symbol multiplier advertised in the paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid.

Example: Stake is 2. Symbol multiplier for length of 5 is 20. The win for 1 payline with this symbol and length would be calculated as such: $2 * 20 = 40$.

The prize value from one way or cluster in a Ways or Winning Clusters game is equal to the stake multiplied by the symbol multiplier advertised in the paytable. Where multiple wins occur on multiple ways or clusters, the total win values are summed.

Example: Total stake = 2. Symbol win multiplier = 2. Win = $2 \times 2 = 4$.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.
