## Wild Symbol

- Wild symbols can appear on reels 2, 3, and 4 during each spin in the main game and during Re-Spins.
- A Wild symbol covering another Wild symbol in the Wild Explosion feature increases its level up to a maximum of level 4 instead according to the following table:

Level	Multiplier
-------	------------

Level 1	No multiplier
---------	---------------

Level 2	x2
---------	----

Level 3	x3
---------	----

Level 4	x5
---------	----

- Wild symbols substitute for all symbols except for each other.
- Wild symbol substitution pays the highest possible winning combination on a bet line according to the Paytable.

- All bet line wins with a Wild symbol are multiplied by the symbol's multiplier if any. If two or more Wild symbols appear on a winning bet line, the bet line win is multiplied only by the highest multiplier from among these symbols' multipliers if any.

## Wild Explosion Feature

- A Wild Reel symbol, a Wild Row symbol, and/or a Random Wilds symbol can appear above reels 2, 3, and 4 during each spin in the main game and during the first Re-Spin.
- A Wild symbol appearing on the reels underneath a Wild Reel symbol, a Wild Row symbol, or a Random Wilds symbol in the main game or during Re-Spins awards a Re-Spin and activates the Wild Explosion feature before the wins are evaluated:
  - A Wild symbol appearing on the reel underneath a Wild Reel symbol levels up and covers the other positions on the reel with Wild symbols.
  - A Wild symbol appearing on the reel underneath a Wild Row symbol levels up and covers the adjacent positions to the right and left with Wild symbols.
  - A Wild symbol appearing on the reel underneath a Random Wilds symbol levels up and covers 2 to 3 random positions on the reels with Wild symbols.
- If there are multiple Wild symbols on a reel underneath a Wild Reel symbol, a Wild Row symbol, or a Random Wilds symbol, one Wild symbol is chosen at random to activate the Wild Explosion feature.
- If there are Wild symbols activating the Wild Explosion feature on multiple reels, it is activated on one reel at a time starting from the leftmost reel. Wild Explosion feature can be activated on each reel only once per spin.

## Re-Spins

- Wild Explosion feature being activated one or more times during a main game spin or a Re-Spin awards a Re-Spin.
- All Wild symbols remain on the reels instead of disappearing at the start of each Re-Spin.
- Re-Spins are played at the same bet as the round activating the Re-Spins.
- At the end of Re-Spins, the total win from Re-Spins is added to any wins from the round that activated Re-Spins.
