

## Grand Spinn Touch™ Game Rules

- Grand Spinn Touch™ is a 3-reel, 3-row video slot with Multiplier Wilds, Nudge feature, and 3 Jackpots.
- The game is played on 1 bet line (fixed), different bet values and different coin values.
- The bet level is set using the **LEVEL** selector. Note: available only in case of multiple bet levels.
- The coin value is set using the **COIN VALUE** selector.
- **COINS** displays the number of coins available to wager.
- **AUTOPLAY** automatically plays the game for the selected number of rounds.
- Winning combinations and payouts are made according to the Paytable.
- A bet line win in coins is equal to the value shown in the Paytable multiplied by the bet level.
- A bet line win in currency is equal to the win in coins multiplied by the coin value.
- Only the highest win per bet line is paid.
- Bet line wins pay if in succession from the leftmost reel to the rightmost reel.
- **Note:** The following functions might be unavailable in some casinos: Autoplay, Quick Spin, Quick Stop.

## Nudge Feature

- Each time there is a winning combination on the reels, the Nudge feature is activated. After the win count up, if the top symbol on the first reel is the same as the winning symbol, the first reel moves 1 symbol down and the win is awarded again.
- The reel will nudge until the symbol above the winning one is different. This process is then repeated for the second reel and eventually the third reel.
- When a reel stops nudging, there might be an up arrow symbol at the top of the reel. In this case, the reel will be moved to the bottom of the current stack of winning symbols and the win will be counted up. The reels will then start nudging and paying from this position as described above.
- The up arrow symbol will be removed after one use and replaced by a blank symbol. Once the reel is at the top of the stack of winning symbols, the nudging will continue on the next reel as usual, until the third reel has been nudged fully.
- Blank symbols can appear anywhere on reels 1-3. Blank symbols do not pay.
- Nudge feature is played at the same bet level and coin value as the spin that activated the feature. The bet level and coin value cannot be changed during the Nudge feature.
- Nudge feature wins are added to the balance.

## Multiplier Wilds

- Multiplier Wild symbols can appear anywhere on reels 1-3 and substitute for all symbols, except up arrow symbol and Jackpot symbols.
- One Multiplier Wild on the winning bet line multiplies the win by 2, two Multiplier Wilds multiply the win by 4 and three Multiplier Wilds multiply the win by 8.
- The Jackpot wins are not affected by the Multiplier Wild symbol.

## Jackpot Rules

- When all the reels are done nudging, there might be Jackpot symbols present at the top of the reels.
- If each reel has a Jackpot symbol on the top of a winning stack, the player is awarded the lowest paying Jackpot out of the present Jackpot symbols.
- For example: 3 Mega Jackpot symbols will pay out the Mega Jackpot; 2 Mega Jackpot symbols and 1 Midi Jackpot Symbol will award the Midi Jackpot; and 1 Mega Jackpot symbol, 1 Midi Jackpot symbol and 1 Mini Jackpot symbol will award the Mini Jackpot.
- If there is no winning combination on the reels, but 3 Jackpot symbols land on the bet line, the relevant Jackpot is awarded with the above rule.
- Mini Jackpot is a fixed Jackpot which awards a coin win of 40 multiplied by the bet level.
- Midi Jackpot is a fixed Jackpot which awards a coin win of 200 multiplied by the bet level.
- Mega Jackpot is a fixed Jackpot which awards a coin win of 10000 multiplied by the bet level.
- Jackpot wins are added to the balance.
