## GAME RULES

- This game is played using Scatter evaluation.
- Winning combinations are defined as groups of matching symbols.
- Only the highest win is paid for each symbol combination.
- All wins are multiplied by the bet multiplier.
- Scatter symbols award in any position on the reels.
- When a winning scatter combination is formed of 5 or more symbols and at least one of the symbols is on reel 3, a new reel will be added and play continues. If any winning combination is increased as a result, play continues and this process repeats. If no winning combinations are increased and the respin meter is 0, all winning combinations are awarded and the game ends.
- When a winning scatter combination is formed of 5 or more symbols and only on reels 1 and 2, and there are no winning combinations that include a symbol on reel 3, then all wins are awarded and the game ends.
- Each [Multiplier Symbol] collected during a winning spin adds +1 to the multiplier meter. All awards except Jackpots are multiplied by the number in the multiplier meter at the end of the spin.
- Each [Respin Symbol] collected during a winning spin adds +1 to the respin meter. If the amount of respins in the meter is great than 0 and no winning combination is increased by the symbols landing on a new reel, the reel will respin and the respin meter will decrease by 1.
- Scatter Symbols appearing in any position on the reels with a value awards a scatter pay if it is part of a winning combination.
- Bonus Symbol, JACKPOT SYMBOLS, MULTIPLIER SYMBOL, RESPIN WILD SYMBOL, WILD SYMBOL, AND SCATTER SYMBOLS are wild and substitute for all non-wild symbols.
