

Ammit Treasure™

About this Game

This is a 5 reel 3 row video slot game.

The objective of the game is to spin the reels so the symbols land in different combinations.

Winning combinations are highlighted on the reels and a payout is awarded.

Whenever an Explorer collect symbol appears during a base game spin, the sum value of all Coins is multiplied by the Collect Multiplier value.

The Collect Multiplier will start at x1 and increases by 1 based on the number of Coins landed on the reels since the last collect.

The Collect Multiplier will reset to x1 after every collect.

The Collect Multiplier and Bonus Guarantee only increase in the base game.

Payline Rules

This game includes 20 paylines.

A payline is a pattern of adjacent symbol positions that runs in a line across the reels.

A win is awarded when matching symbols land adjacent to each other on a payline.

Payline wins run from left to right, starting from the first slot reel.

The number of paylines played is fixed.

Payout Rules

Payline win payouts are based on the initial bet placed.

The payout value is based on the winning combination formed.

The total payout is the sum of all payline wins resulting from a spin.

If multiple winning combinations land on a single payline, only the highest win is awarded.

Only the highest winning combination is awarded per symbol combination.

It's possible to achieve a bonus, and line win combinations.

The Paytable displays the payout for each symbol combination based on the current bet.

The win up to value displayed is rounded down, and is approximately the highest possible win achievable on a single spin.

Bet Rules

Each spin played costs a total bet amount.

Wild Symbols

Snake symbols are Wild symbols.

Wild symbols can create their own winning combination when landing in a payline combination.

Wild symbols can substitute for all symbols except Coin, Pyramid and Explorer.

Bonus Feature

6 Coins in view initiates the bonus.

All Coins are locked for the respins.

The player has three respins to land more Coin, Pyramid or Explorer symbols.

Each respin equals one chance.

If at least one Coin, Pyramid or Explorer symbol lands in a spin, the number of available respins resets to three.

The bonus ends when all respins are used.

At the beginning of the feature there is a Trail that displays Explorer collect symbols, Multiplier values and Grand prize.

The Trail starts on x1 and increases by one position after every Explorer that lands, and any collect wins are processed.

The maximum multiplier available is x5.

Whenever an Explorer symbol appears during a respin, the sum of all Coin and Pyramid symbols in view is collected and cleared off the reels, then multiplied by the current Trail Multiplier.

Explorer symbols do not stick.

If 8 Explorers appear during a feature, the Grand prize is awarded.

After any spin an Explorer collects and multiplies all Coins or a Pyramid, the chances are reset to three.

On any occasion all positions are filled with both Coins or a Pyramid, the feature automatically ends and the total is collected.

The Bonus Guarantee is displayed on the screen, and will increase every time you achieve a winning combination involving the Ammit symbol.

The minimum Bonus Guarantee will increase by 10x.

Maximum Bonus Guarantee is 200x.

The Bonus Guarantee will reset between 50x and 200x after the bonus has been completed.

The maximum win amount is limited to 6000x bet.

If the total win of a bonus round reaches 6000x bet, the round immediately ends.

All lines played are the same as the spin that triggered this bonus.

All bets played are the same as the spin that triggered this bonus.
