

1.1 Game Features

xPays	<p>xPays is a payout structure which pays out when there is a common symbol on atleast first 3 reels. The winning combination of one symbol consists of all the same symbols on consecutive reels starting from the left.</p> <p>All symbols present in winning combinations will remain on the reels and all other symbols will be removed and new symbols will fall in. This process continues until there are no additional winning symbols on the reels.</p> <p>The Bonus symbol is not counted towards the activation or continuation of xPays, however it is not removed along with the non-winning symbols and remains on the slot.</p> <p>xPays pays out when no more winning symbols land. The number of symbols in the combination multiplied by its value according to the pay table constitutes the total win amount.</p>
Colossal Symbols	<p>2x2 or 3x3 colossal symbols may land on any free drop. The colossal symbols will hold a multiplier.</p> <p>If the colossal symbols leaves an empty positions underneath itself, Wild symbols will fill these empty positions.</p> <p>Any symbol with a multiplier on it, gets counted as multiple symbols, not just as one single symbol.</p>
Symbol Multiplier	<p>After a collapse or a full screen - whenever a full row is filled up, the collected symbols will be upgraded to a higher paying symbol. The highest paying symbol will be upgraded with an added multiplier.</p> <p>Any symbol with a multiplier on it, gets counted as multiple symbols, not just as one single symbol.</p>
Monkey's Gold Free Spins	<p>Triggered by 3 or more Bonus symbols. 3 Bonus symbols award 10 spins, any additional Bonus symbols award +3 extra spins. A sticky Vine Multiplier will be added to the ordinary xPays for even greater wins.</p> <p>A Bonus symbol award +1 extra spin during the Free Spins.</p>
Vine Multiplier	<p>Will award a increasing sticky win multiplier for each row that is filled up that will stay during the entire bonus feature.</p>

The Vine Multiplier will multiply the total win amount when no more winning symbols are added. It increases for every full row that is filled and is sticky throughout the remainder of the spins.

At the beginning of the Free Spins, the initial Vine Multiplier and its incremental steps is decided by the dice – each row filled will then award an increasing Vine Multiplier.
