## Unfinished Games

If your game round is disrupted, all game information and placed bets are stored until you re-open the game. You may continue your unfinished round from the point of interruption. Unresolved bets placed but remaining undecided in incomplete games will become void after 30 days. Malfunction voids all pays and plays.

## Information

Payline wins occur on the number of selected paylines, according to the information in the paytable and game rules. When winning on multiple paylines in a single game round, all winnings are added together. All winnings from Features (such as Free Spins), Bonus Games and/or Scatters (if applicable) are also added to payline wins. All winning combinations are paid out at the end of a game round. Free Spin features are played with the same bet and same number of selected lines as the game round that triggered the feature – unless otherwise stated. The bet cannot be changed during a currently running game round. Please refer to the game rules for more information. All wins pay left to right, beginning with the left-most reel. Symbol wins pay for any winning payline combination without any gaps. Only the highest win is paid per active win line.

## Game Rules

USA Flip is a 5-reel video slot game. You can activate up to 20 lines and bet up to 5 coins/line. Lines must be activated in numerical order (1,2,3,4, etc.).

USA Flip includes a WILD symbol (Eagle Head), walking WILD symbol (Walking Eagle) and a SCATTER symbol (Star). The WILD and walking WILD symbols substitute for all other symbols except the SCATTER symbol.

Three or more SCATTER symbols on the reels trigger FREE SPINS. During FREE SPINS, the reels are flipped, reversing the order of the reels for an increased chance to win big! The FREE SPINS feature can be re-triggered by landing three or more SCATTER symbols on the reels at the same time. 12 additional spins are awarded for each re-trigger for a maximum of 120 FREE SPINS.

A near-win RE-SPIN is triggered on a losing spin whenever a full stack of the same symbol (including WILDS) land on the first reel and second reels, the middle reel will RE-SPIN with all other reels remaining locked. The FREE SPINS feature can be triggered by a RE-SPIN feature.

Stacked WILD symbols can land on the middle reel after RE-SPIN is triggered. The stacked WILD symbols become a walking WILD symbol that moves right by one reel for each RE-SPIN until landing on the last reel. An additional RE-SPIN occurs on all reels once the walking WILD has stopped on the last reel. During FREE SPINS, the walking WILD moves left by one reel until it stops on the first reel. While the walking WILD is active, SCATTERS can't land. If 3 SCATTER symbols land during the near win RE-SPIN feature, the walking WILD feature is not triggered, but the FREE SPINS feature is triggered instead.

Stacked High-Paying symbols can land on the last 2 reels in the base game. During FREE SPINS, stacked High-Paying symbols will land on the first 2 reels.

All symbols can appear on all reels during the main game, during the FREE SPIN feature and during the near-win RE-SPIN feature.

In the SETTINGS window, you can specify the number of lines you wish to activate per round, the number of coins you wish to bet per active line, and the coin denomination used. To start the round, click SPIN. When the reels stop, the symbols displayed determine your prize according to the paytable.

Maximum Win: 100000.00 USD
