About The Game

SUPER REELS

In the base game Super Reels are triggered randomly. The reels are expanded to 9 rows and 45 winlines. 3 free spins of the Super Reels are awarded (SUPER SPINS).

FREE SPINS BONUS

3 or more BONUS (scatter) symbols in view triggers the Free Spins Bonus and awards a bonus win.

During free spins a Bonus symbol landing in view on reel 3 activates the Super Reels.

When Super Reels are active any Bonus symbol landing in view on reel 3 increases the win

multiplier. The following multipliers are possible: x2, x3, x4, x5, x10.

A bonus symbol landing in view on reel 3 during free spins awards 3 extra Free Spins.

BONUS symbol appears on Reel 3 only during Free Spins.

Free Spins are played at the paylines and bet of the trigger game.

BONUS BOOST

Selecting Bonus Boost places a side bet equal to the current active bet. When BONUS BOOST is active it increases the number of BONUS symbols on the reels, for a much higher Free Spins Bonus frequency.

Bonus Boost is only active in the base game and is not active during Free Spins.

With Bonus Boost active all wins remain multiples of the current base bet.

HOW TO CALCULATE PAYLINE WINS

To calculate your total payline win, calculate all payline wins and add them together.

To calculate a single payline win, count the number of identical symbols lined up in sequence on the line.

If three or more identical symbols are lined up, find the win value in the dynamic Pay Table. There you can find the value for all symbols for 3 in a row, 4 in a row and 5 in a row. Only the highest winning combination per line is paid out.

If the winning combination starts with three wilds, there can be many ways to interpret the win. In this scenario, only the highest win combination is paid out.

The above doesn't include Bonus symbols which do not need to be on a payline to award a prize.

After the Bonus round is completed, all wins are added to any win from the game that activated the Bonus.

There can be a discrepancy between sum of the individual wins in Free Spins from what is displayed in the total win end screen. The total win end screen displays the final rounded win.
