FEATURES DESCRIPTION

REELS OF POSEIDON

When the Big Poseidon Wild covers the whole reel 5, it locks and nudges one reel to the left on each consecutive spin until it reaches the first reel. No Free Spins Symbols will land during the feature.

UNLIMITED FREE SPINS

When 2 Free Spins Symbols land on reel 1 and 3 and the Big Poseidon Wild covers the whole reel 5, all lock and trigger the Free Spins Bonus. If the Big Poseidon Wild covers only 2 positions on reel 5, it may nudge up or down to cover the whole reel. Before the first spin, the Free Spins Symbols turn into single Wilds and all winning lines pay. All Wilds nudge one reel to the left on each spin until they disappear. Extra single Wilds can land and lock on reels 1 to 4, while a new Big Poseidon Wild may appear and lock only on reel 5. The free spins continue as long as there are locked Wilds on the reels.

HOW TO PLAY

Adjust your total stake and spin the reels!

The reels will spin and stop on a random position.

Total Stake

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or - buttons.

GAME PROGRESS

Any progress features in the game are saved per stake level, including symbols locked onto the reels which affect subsequent spins. You can have a different progress level for every different stake in the game, and switch between them by changing the stake. In cases where free spins from a promotional campaign are awarded, any progress in the main game, including any locked symbols, is paused and will be saved per stake, and be available to use once the promotional campaign free spins are over. Please note that each stateful game saves its state forever.

Auto Complete

This game saves its state for 5 calendar days, starting from the date of the last action taken. At times when the game remains uncompleted after 5 days, the Auto Complete functionality will finish the action. Any winnings will be automatically added to the user's balance.

The prize value of a single payline is equal to the total stake divided by the number of total paylines for the game, multiplied by the symbol multiplier presented in the payable. In cases where multiple wins occur on multiple win lines in the same spin, their total win values are summed. If more than one win occurs on the same payline, only the largest win is paid.

Example: The total stake is 2. The total paylines are 20. The symbol multiplier for 5 identical landed symbols is 300. The win for a single payline would be calculated as follows: $(2 / 20) * 300 = 30$.

The prize value from one way or a cluster in a Ways or Winning Clusters game is equal to the stake multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur in multiple ways or clusters, the total win values are summed.

Example: Total stake = 2. Symbol win multiplier = 2. Win = $2 \times 2 = 4$.

Any Scatter Symbol wins will be paid in addition to any other symbol wins occurring on the same spin.
