FORTUNE COINS

FORTUNE COINS are only gathered from symbols participating in a win line. The game starts with 38 coins already in the pot on each stake. Gathering 138 coins triggers the FORTUNE BONUS. Gathering over that amount will trigger the bonus for 138 coins and the excess coins will roll over for the next FORTUNE BONUS. Triggering the FORTUNE BONUS with no excess amount of coins will reset the progress to 0. One random symbol type can appear with FORTUNE COINS. During FREE SPINS all symbols that appear have a FORTUNE COIN.

WILD SYMBOLS

Substitute for all paying symbols and always appear with a coin.

FORTUNE BONUS

When triggered the player can pick from 16 possible coins. Picking a coin will reveal the back of the coin which will have one of the four FORTUNE PRIZE colours. Picking three coins of the same colour will award the corresponding FORTUNE PRIZE. Each time the Bonus is triggered all coins will be randomly positioned.

LUCKY ENVELOPE

The LUCKY ENVELOPE symbol is a scatter. Each LUCKY ENVELOPE that lands on the reels will open to reveal a LUCKY COIN. Up to 10 LUCKY ENVELOPES can land in a single spin and each of them will reveal a random LUCKY COIN. There are four LUCKY COIN colours which increase the corresponding FORTUNE PRIZE with a corresponding amount.

FREE SPINS

The FREE SPINS symbol is a scatter. Three FREE SPINS symbols on reels 1, 3 & 5 award 8 FREE SPINS. During FREE SPINS all symbols will appear with a FORTUNE COIN. The FORTUNE BONUS can be triggered during FREE SPINS. FREE SPINS symbols do not appear in FREE SPINS and thus no bonus spins will be awarded during the bonus round.

HOW TO PLAY FA FA BABIES

Game Progress

Any progress features in the game, including symbols locked onto the reels which affect subsequent spins, are saved for your game at the stake level you are playing at.

You can have different progress levels at different stakes on the same game, and move between them by changing the stake.

If you are awarded free spins from a promotional campaign any progress in the main game including any locked symbols, will be saved and be available to continue playing at the same stake once the free spins have been completed.

Please note that this stateful game saves its state forever.

Total Stake

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or – buttons.

Spin the Reels

If you are playing on desktop, click the Spin button or press the spacebar to spin.

Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. Spin the jackpot wheel to determine which of the offered jackpot tiers will be won. The size of the segments on the jackpot wheel do not correlate to the odds of winning each jackpot tier represented. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game.

In case of an incomplete game round due to connection loss where the result has occurred, but the player could not be informed of this fact, the game will inform the player of the outcome upon refreshing of the game and the result will be visible in the Game History.
