

Game Basics

Cursed Treasure is a 5-reel, 4-row video slot with Cash Prize symbols, the Cursed Treasure feature, Free Spins, and the Buy Feature.

The main game is played with different bet values and 20 bet lines (fixed). Bet line wins pay if in succession from the leftmost reel to the rightmost reel, without gaps. Simultaneous wins on different bet lines are added, and only the highest win per bet line is paid.

A bet line win is equal to the value shown in the Paytable. Symbol payout values shown in the Paytable are dynamic and change in accordance with the selected bet value.

Wild Symbols

Wild symbols can appear in the main game on reels 2, 3, 4, and 5. Wild symbols substitute for all symbols except for Scatter symbols and Cursed Treasure symbols.

Wild symbols substitution pays the highest possible winning combination on a bet line according to the Paytable.

Cash Prize Symbols

Cash Prize symbols can appear in the main game and in Free Spins. In the main game, three or more Cash Prize symbols appearing on a bet line from the leftmost to the rightmost reel, without gaps, award a bet line win equal to the sum of their values.

In the main game, Cash Prize symbols appearing on the reels have values of 0.5 to 20 times the bet. Each Cash Prize symbol can only pay once per spin.

Example: In the image above, there are 2 winning bet lines (line 8 and line 13). On the first one, the Cash Prize symbols in every position will be counted, so the win for the first bet line is $2 + 1 + 1 = 4$.

On the second bet line, however, the Cash Prize symbols “2.00” and “1.00” have already been counted for a bet line win in this spin, and their prize will not be repeated. The total win for the second bet line then is $0 + 0 + 1 = 1$. The total win for the spin is the sum of the win of both bet lines ($4 + 1 = 5$).

Wild symbols may substitute for Cash Prize symbols, but the value of Wild symbols is 0.

The total win from Cash Prize symbols is added to any wins from that same round.

Cursed Treasure Feature

The Cursed Treasure feature can be activated in both the main game and in Free Spins.

The Cursed Treasure feature collects Cursed Treasure symbols appearing anywhere on the reels into the collect meter. The meter starts at 5, and each Cursed Treasure symbol collected increases the collection by 1.

In the main game, the feature can be randomly activated after one Cursed Treasure symbol or more is added to the collect meter. When the feature is activated, Cash Prize symbols are placed on the reels. The number of Cash Prize symbols placed on the reels is equal to the number of Cursed Treasure symbols in the collect meter.

When the collection has less than 20 symbols collected in the main game, the Cash Prize symbols placed on the reels have values ranging from 0.5 to 5 times the bet; when the collection has 20 or more symbols collected, the Cash Prize symbols placed on the reels have values ranging from 0.5 to 20 times the bet.

During the main game and Free Spins, if Cash Prize symbols are placed on the same position as another Cash Prize symbol, both symbols' values are added to each other. Cash Prize symbols cannot be placed where there is already a Scatter symbol. Once all symbols from the Cursed Treasure Feature have been placed on the reels, the wins are evaluated.

Once the Cash Prize symbols are paid out, the number on the collect meter is reset to 5.

If Free Spins is activated while the Cursed Treasure collection still has symbols in the main game, the collection is saved until the main game is resumed, and a new Cursed Treasure collection appears in Free Spins with the starting number of 5.

When the bet value is changed, all Cursed Treasure symbols collected are saved with the original bet value and removed from the main game, with a new collection taking its place. When the bet value is changed back, the Cursed Treasure symbols collected before are restored with the bet.

Note: The saved data is subject to expire.

Free Spins

3 or more Scatter symbols appearing anywhere on the reels in the main game activate Free Spins after the wins are evaluated. In Free Spins, every position on the reels spins individually, and only Cash Prize symbols, Mystery Cash Prize symbols, and Cursed Treasure symbols can appear on the reels.

The starting number of Free Spins is 3. Every time a Cursed Treasure symbol, a Cash Prize symbol, or a Mystery Cash Prize symbol appears on the reels during a spin in Free Spins, the spin counter is reset to 3.

Cash Prize symbols appearing anywhere on the reels are assigned random values of 0.5 to 10 times the bet, while Mystery Cash Prize symbols are assigned random values of 50 to 5000 times the bet, and both award a win equal to the sum of their values. Cash Prize and Mystery Cash Prize symbols remain on the reels until the end of Free Spins. The value of each Cash Prize symbol appearing on the reels is added to the total win from the round, and will pay at the end of Free Spins.

Cursed Treasure symbols are collected in a new collect meter with a starting value of 5, each one increasing the collection number by 1.

When there are no more Free Spins left in the counter, the Cursed Treasure collection places a number of Cash Prize symbols (with random values of 0.5 to 20 times the bet) on the reels equal to the number of symbols collected. Cash Prize symbols cannot be placed where there is already a Mystery Cash Prize symbol.

Once the Cash Prize symbols from the collection have been placed on the reels, the value of each Mystery Cash Prize symbol on the reels is revealed, after which the round is over, and the values of the Cash Prize symbols placed on the reels by the collection and the Mystery Cash Prize symbols are added to the total win from Free Spins.

Free Spins are played at the same bet as the round that activated Free Spins, and Free Spins end when the Free Spins counter reaches 0, when the play area is completely filled with Cash Prize symbols and/or Mystery Cash Prize symbols, or when there are 15 Mystery Cash Prize symbols on the reels. At the end of Free Spins, the total win from Free Spins is added to any wins from the round that activated Free Spins, and the game returns to the round that activated the Free Spins.

Buy Feature

Free Spins can be activated with the Buy Feature for 100 times the bet.

When the Buy Feature is used, Free Spins are immediately activated.

Return to Player

The theoretical return to player for this game is 94.07%.

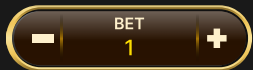

The theoretical return to player in the Buy Feature is 94.10%.
