

SPECIAL SYMBOLS AND FEATURES

MEGAWAYS™

Each spin awards a different ways to win combination depending on the total number of symbols which land on the reels. Landing a maximum of 7 symbols on each of the 6 reels offers a potential 117,649 MegaWays™ to win!

CHAIN REACTION

Symbols forming wins disappear, giving way for new symbols to drop in that may form new wins.

ROYAL CORGIS

The Royal Corgis are Super scatter symbols which always land in their full size and cover a whole reel. The Royal Corgis have a ways multiplier of 2x applied to all win ways which the WILD participates in. If both Corgis participate in a win way, their multipliers are multiplied by each other.

There are two types of Corgis. A male Corgi that only lands on the 2nd reel and a female Corgi that only lands on the 5th reel.

The Royal Corgis are not destroyed when participating in a win way. Corgis can also land after a cascade if all tiles on the corresponding reels have been destroyed. The win ways are awarded before the QUEEN SPINS are triggered.

QUEEN SPINS

Landing both Royal Corgis in the same spin triggers 10 QUEEN SPINS. The Royal Corgis will lock for the duration of QUEEN SPINS.

No retriggers of QUEEN SPINS are available during the bonus round.

RISING MULTIPLIER

Each win during QUEEN SPINS will increase a Rising Multiplier that applies to all wins up to 20x. The multiplier resets at the end of the bonus round.

BABY CORGIS

During QUEEN SPINS, the Baby Corgis bonus may be randomly triggered. The male and female Royal Corgis may send kisses and hearts to each other and spawn a random amount of between 2 and 5 Baby Corgis between them. The Baby Corgis are WILDS that substitute for all paying symbols. The Baby Corgis will not lock and they will disappear if they participate in a win way.

Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

If you are playing a Lines game, the prize value from one payline is equal to the total stake divided by the number of paylines, multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

Example: Total stake is 2. Total paylines are 20. Symbol multiplier for length of 5 is 300. The win for 1 payline with this symbol and length would be calculated as such: $2 / 20 * 300 = 30$.

If you are playing a Ways, a MegaWays or a Cluster game, the prize value from one way or cluster in a Ways or Winning Clusters game is equal to the stake multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed.

Example: Total stake = 2. Symbol win multiplier = 2. Win = $2 \times 2 = 4$.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.
