

SPECIAL SYMBOLS AND FEATURES

SIRENS' TREASURE PROGRESS BAR

Each spin is numbered from 1 to 15, indicated by a counter above the reels. There are two sirens watching over the reels. There is also a progress bar to the right of the reels with 14 milestones on it that represent the Sirens' Treasure and all achievable prizes.

Each time the Nobleman scatter lands the Sirens seduce him and gather his life essence to move the progress on the bar by one step. Each second step unlocks a prize that will be awarded on the 15th spin.

On the 15th spin every prize unlocked on the progress bar is guaranteed and all unlocked prizes are awarded at once. The prizes available and the steps on which they are unlocked are as follows:

Step 2: 2 WILDS guaranteed to appear.

Step 4: +1 WILD is added for a total of 3 WILDS guaranteed to appear.

Step 6: Guaranteed that the Siren Queen 1x4 SUPER WILD appears on the middle reel.

Step 8: The Siren Queen is guaranteed to appear with a x2 WIN MULTIPLIER.

Step 10: + x1 is added to the Siren Queen's MULTIPLIER for a total of x3 WIN MULTIPLIER and one RESPIN is added.

Step 12: + x2 is added to the Siren Queen's MULTIPLIER for a total of x5 WIN MULTIPLIER, and another RESPIN is added for a total of 2 RESPINS and an additional 3 WILDS are added for a total of 6 WILDS guaranteed to appear.

Step 14: TOP WIN award of 3000x the current stake is added in addition to all other rewards.

THE NOBLEMAN

The Nobleman scatter may only appear on the middle reel and cannot appear on the 15th spin. Each Nobleman scatter that lands moves the progress on 1 step on the Sirens' Treasure bar. Only 1 Nobleman may land in a spin.

WILDS

WILDS may land anywhere and on any spin. On the 15th spin they may land in addition to any WILDS guaranteed from the Sirens' Treasure bar.

WILDS substitute for all paying symbols and count as the symbol which forms the highest winning combination on a single pay line.

THE SIREN QUEEN

The Siren Queen is 1x4 SUPER WILD and may only appear on the 15th spin if unlocked from the progress bar. She always appears on the middle reel. The Siren Queen may come with a x2, x3 or x5 WIN MULTIPLIER based on the progress achieved on the Sirens' Treasure bar. The MULTIPLIER is applied on all wins from win lines in the spin.

RESPINS

RESPINS are triggered when Step 10 or higher has been unlocked on the Sirens' Treasure progress. During RESPINS the Siren Queen SUPER WILD, WILDS granted from the Sirens' Treasure bar, and any WILDS that have landed on the 15th spin or in the following RESPINS, will be locked for the remaining RESPINS.

TOP WIN

Top Win refers to the 3000x stake multiplier award on top of the Sirens' Treasure bar and not to the maximum win possible in the game.

HOW TO PLAY SIRENS' RICHES

Game Progress

Any progress features in the game, including symbols locked onto the reels which affect subsequent spins, are saved for your game at the stake level you are playing at.

You can have different progress levels at different stakes on the same game, and move between them by changing the stake.

If you are awarded free spins from a promotional campaign any progress in the main game including any locked symbols, will be saved and be available to continue playing at the same stake once the free spins have been completed.

Please note that this stateful game saves its state forever.

Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. Jackpot prizes are not affected by any game features e.g. multipliers are never applied to jackpots. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin. If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game.
