GAME RULES

- This game is played at between 729 and 117649 ways.
- Ways wins contain one symbol from each adjacent reel, beginning with the leftmost reel.
- The same symbol, or its substitute, in a different position on the same reel pays that ways win again.
- Line wins are multiplied by the bet multiplier.
- Scatter symbols award in any position on the reels.
- Wins are shown in credits unless marked as currency.

BASE GAME

- By default each reel consists of 3 symbol positions.
- Landing a fox activator symbol on an inactive reel will cause that reel to activate.
- Activated reels expand to include one additional symbol position on each subsequent bet, up to a maximum of 7 symbol positions.
- After a bet where a reel expanded to 7 symbol positions, that reel is deactivated and resets to having 3 symbol positions.
- Activated reels are different from the default reels.
- Above each reel is a meter consisting of a number of segments. By default no segments are filled on these meters.
- After a bet where a reel expanded to 7 symbol positions, that reel's meter fills one empty segment.
- After a bet where the last segment of a reel's meter is filled, that reel will remain consisting of 7 symbol positions for the subsequent 5 bets before deactivating and resetting to having 3 symbol positions.
 - The meter above reels 1 and 6 has 6 segments.
 - The meter above reels 2 and 5 has 7 segments.
 - The meter above reels 3 and 4 has 8 segments.
- Placing a bet at a different bet multiplier will deactivate each reel, reset each reel to having 3 symbol positions, and remove all filled segments from the meters above each reel.
- The wild symbol substitutes for all symbols except the fox activator symbol.
- The wild appears only on reels 2, 3, 4, and 5.
- The wild appears on reel 5 only when that reel has been activated by a fox activator symbol.
