

## **SPECIAL SYMBOLS AND FEATURES**

### **FEATURE JARS & SCARAB WILDS**

Scarab WILD symbols can appear on any spin on reel 1, 3 and 5 until all features are unlocked, except spins that have a feature. Collect Scarab WILD symbols to progressively fill the feature jars until each successive feature is unlocked.

Once a feature is unlocked it will be triggered on the next spin at the same stake and may continue to trigger randomly on any future spins at that stake. More than 1 feature may trigger in the same spin if there is more than 1 feature unlocked.

Feature Jar requirements:

1st Stage – 6 Scarabs required. Unlocks REMOVE SUITS feature.

2nd Stage – 12 Scarabs required. Unlocks RANDOM WILDS feature.

3rd Stage – 18 Scarabs required. Unlocks MULTIPLIER feature.

4th Stage – 24 Scarabs required. Unlocks MEGA WILDS feature.

When a Scarab WILD lands, it fills a feature jar and then disappears from the reels, resulting in fewer Scarabs available to land on subsequent spins.

Scarab WILDS substitute for all paying symbols.

### **REMOVE SUITS**

All card suit symbols are removed from the reels for the spin.

### **RANDOM WILDS**

A random number of Cleopatra WILD symbols land on the reels. They can land on any reel. Cleopatra WILDS substitute for all paying symbols and count as the symbol which forms the longest winning combination on a single win line.

### **MULTIPLIER**

A sundial spins and stops to select a MULTIPLIER. The MULTIPLIER is applied to the next win that occurs. If there are no wins in the spin in which the feature is activated, it remains active until a win occurs.

If the MULTIPLIER feature is triggered again before a winning spin occurs the revealed multipliers will be stacked up.

If a multiplier is active before you enter Free Spins, the multiplier will be applied to the first win that occurs in the bonus. If a multiplier is active at the end of Free Spins, it will be applied to the next win that occurs after the bonus has finished.

The possible MULTIPLIERS are: x2, x3, x4, x5, x7, x10.

### **MEGA WILDS**

When this feature triggers, it adds 1 or more Cleopatra WILD Mega symbols of 2x2 to 3x3 size on the reels.

## **FREE SPINS**

3, 4 or 5 FREE SPINS scatters during a base spin trigger 8, 10, 12 FREE SPINS.

3, 4 or 5 FREE SPINS scatters during a FREE SPIN trigger 4, 5, 6 additional FREE SPINS.

Any unlocked features can also trigger in the bonus round.

## **HOW TO PLAY RISE OF CLEOPATRA**

### **Game Progress**

Any progress features in the game, including symbols locked onto the reels which affect subsequent spins, are saved for your game at the stake level you are playing at.

You can have different progress levels at different stakes on the same game, and move between them by changing the stake.

If you are awarded free spins from a promotional campaign any progress in the main game including any locked symbols, will be saved and be available to continue playing at the same stake once the free spins have been completed.

Please note that this stateful game saves its state forever.

### **FEATURE BUY**

#### Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. Jackpot prizes are not affected by any game features e.g. multipliers are never applied to jackpots. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

#### Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any

time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

### General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin. If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game. In case of an incomplete game round due to connection loss where the result has occurred, but the player could not be informed of this fact, the game will inform the player of the outcome upon refreshing of the game and the result will be visible in the Game History.
