

## **SPECIAL SYMBOLS AND FEATURES**

### **WILD POSTER**

The WILD poster symbol substitutes for all paying symbols and counts as the symbol which forms the longest winning combination on a single win line. They appear on the reels and can also be created by Jackrabbit Jack.

### **JACKRABBIT JACK**

Jackrabbit Jack is a WILD symbol which substitutes for all paying symbols and counts as the symbol which forms the longest winning combination on a single win line. It always lands on the middle position of the middle reel. When it lands it will create a random number of WILD posters and remain in its position.

At the start of each next spin, Jackrabbit Jack will move to a neighbouring position vertically, horizontally or diagonally. If Jack moves to a position outside of the visible part of the grid the feature ends. If he remains visible after moving he will create WILDS again.

### **GOLD COINS**

After creating WILDS, Jack may randomly shoot at the 3 gold coins above the reels. If any of the gold coins reveal a MINI, MINOR, MAJOR or MEGA prize, the corresponding instant prize is won. If a coin reveals BONUS or SUPER BONUS, the respective FREE SPINS round is triggered.

### **INSTANT PRIZES**

There are 4 instant cash prizes that represent a stake MULTIPLIER: MINI 5x, MINOR 10x, MAJOR 50x and MEGA 1000x. They are won by revealing the respective name of the prize in the gold coins feature. More than 1 coin can reveal the same prize in the same spin, in which case the prize is awarded as many times as it appeared on the coins.

### **FREE SPINS**

Triggered if 1 or more coins reveal BONUS after Jack has shot at them. For every coin that reveals BONUS, 7 FREE SPINS are awarded. During the bonus round Jack cannot leave the reels and will create 1 or more WILD posters on each spin.

Retriggers are possible by revealing the BONUS from a gold coin with 7 FREE SPINS being awarded for every BONUS that appears.

On the spin after FREE SPINS, Jack will start out at the position he was at the end of the bonus round.

If during the bonus round a gold coin reveals SUPER BONUS, the feature is upgraded to

SUPER FREE SPINS and all remaining spins, including those potentially won by revealing a BONUS together with SUPER BONUS, will be played out as SUPER FREE SPINS.

## **SUPER FREE SPINS**

Triggered if 1 or more coins reveal SUPER BONUS after Jack has shot at them. The SUPER BONUS also equals 7 FREE SPINS as the BONUS. If the coins reveal both BONUS and SUPER BONUS, all awarded FREE SPINS will be played out as SUPER FREE SPINS.

During SUPER FREE SPINS Jack cannot leave the reels and will create a minimum of 4 WILD posters on each spin.

Retriggers during SUPER FREE SPINS are possible in the same ways as in FREE SPINS, but the coins can reveal only SUPER BONUS and never BONUS.

During both types of FREE SPINS it is also possible for the instant prizes to be revealed by the gold coins.

## **HOW TO PLAY JACKRABBIT JACKPOTS**

### **Game Progress**

Any progress features in the game, including symbols locked onto the reels which affect subsequent spins, are saved for your game at the stake level you are playing at.

You can have different progress levels at different stakes on the same game, and move between them by changing the stake.

If you are awarded free spins from a promotional campaign any progress in the main game including any locked symbols, will be saved and be available to continue playing at the same stake once the free spins have been completed.

Please note that this stateful game saves its state forever.

### **FEATURE BUY**

### Jackpot Game

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. Jackpot prizes are not affected by any game features e.g. multipliers are never applied to jackpots. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

### Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund,

which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

### General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game.

In case of an incomplete game round due to connection loss where the result has occurred, but the player could not be informed of this fact, the game will inform the player of the outcome upon refreshing of the game and the result will be visible in the Game History.

For the best gaming experience, use of the latest version of software is recommended. Malfunction voids all pays and plays.
