

## **SPECIAL SYMBOLS AND FEATURES**

### **SHAKERS AND PROMOTIONS**

2 neon signs showing Cocktail and Multiplier promotions are placed above the reels. The promotions may change randomly on each spin and affect all Shaker scatters that land in the spin.

The Cocktail Promotion will show either a short or a tall glass. When it shows a short glass all Shaker scatters landing in the spin will turn into COCKTAIL WILDS, and if it shows a tall glass, they will turn into SUPER COCKTAIL WILD symbols, 1x3 in size, covering the whole reel.

The Multiplier Promotion will show a multiplier of x1, x2, x3, x5 or x10. If the multiplier is higher than x1 it will also be applied to all COCKTAIL WILDS that the Shaker transforms into. The multiplier applies to all win lines in which the Cocktail Wild with multiplier participates in.

In case several Cocktail Wilds with a multiplier participate in a win line, only one of the multipliers will be applied to the win.

### **PRETTY WOMAN**

The Pretty Woman is a WILD symbol that is constantly present in the middle position of the 3rd reel.

The middle positions on the left and right sides of the Pretty Woman are framed with a yellow neon frame. Landing one of the men symbols in the frame triggers their respective feature.

### **SPORTSMAN BONUS**

When a Sportsman symbol lands in the middle frame all Sportsman symbols present on the reels turn into WILDS and the one in the frame will also clone itself vertically.

### **BUSINESSMAN BONUS**

Landing a Businessman symbol in the middle frame turns all Businessman symbols present on the reels into WILDS, holding an x3 WIN MULTIPLIER. The multiplier is applied to all win lines in which the Wild with multiplier participates in.

In case several Businessman Wilds participate in a win line only one of the multipliers is applied to the win. In case both a Businessman Wild with multiplier and a Cocktail Wild with multiplier participate in a win their multipliers are multiplied.

### **MUSICIAN BONUS**

When a Musician symbol lands in the middle frame all Musician symbols present on the reels turn into WILDS.

If this does not result in a win, all WILDS on the reels are held and a RESPIN is triggered. The RESPINS continue until a win is formed. Any new WILDS that land in the RESPINS will also be held. Additionally, in the RESPINS the Cocktail Promotion will always show a tall glass and if there are any COCKTAIL WILDS, 1x1 in size, present on the reels they will turn into SUPER COCKTAIL WILDS, 1x3 in size. The Multiplier Promotion does not change throughout the RESPINS.

### **WILDS**

WILDS substitute for all paying symbols and count as the symbol which forms the highest paying combination on a single win line.

### **FREE SPINS**

Landing any 2 men symbols in the middle frame awards 10 FREE SPINS. Landing any 2 men symbols in the middle frame during Free Spins awards 10 additional spins.

In the bonus round the Cocktail Promotion always shows a tall glass.

### **HOW TO PLAY MIDNIGHT ROMANCE**

#### **Total Stake**

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or – buttons.

#### **Spin the Reels**

If you are playing on desktop, click the Spin button or press the spacebar to spin.

#### **Gamble Wheel**

After a spin which results in a win of more than 0.10 GBP, the "Gamble" button is activated and the player may enter the Gamble game for a chance to increase their win.

The Gamble Wheel offers the player true odds and always plays 100% randomly with 100% RTP. The player can configure the Gamble using the following options:

Pressing the plus button increases the potential win on the ladder and recalculates the wheel's chances. Pressing the minus button decreases the potential win. The green section of the wheel displays the exact chance of winning. The red section displays the exact chance of losing. If the player commits to pressing the Gamble button, the pointer within the wheel will spin. If the pointer lands in the green area, the player wins the highlighted prize which they chose in advance. If the pointer lands on the red area the Gamble is over and the player returns to the slot game.

The player doesn't have to collect the winnings manually. They are auto-collected after every Gamble round. Press the "Collect" button to collect your winnings and return to the slot game.

If the Gamble feature is closed, the player cannot return to the feature unless they win another round in the slot game. The Gamble feature is disabled during auto-play. Jackpot winnings cannot be gambled.

#### **Jackpot Game**

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this

occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

#### Progressive Jackpot

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

#### General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.
