

SPECIAL SYMBOLS AND FEATURES

MYSTERY SAUCE

MYSTERY SAUCE scatters may land anywhere on the reels. All MYSTERY SAUCE scatters reveal the same symbol type. They may reveal only one of the barbecue symbol types. The barbecue symbol types in progressing order are: Garlic, Onion, Serrano, Jalapeno, Habanero and Ghost Pepper.

FREE SPINS

3, 4 or 5 FREE SPINS scatters anywhere on the reels award the FREE SPINS bonus round with 9, 12 or 15 FREE SPINS respectively. During FREE SPINS some of the MYSTERY SAUCE scatters that land may appear with a little pepper marker. In addition to revealing the same barbecue symbol those symbols also contribute towards the progress in the HOT BAR featured during the bonus round.

HOT BAR

The HOT BAR is only featured during FREE SPINS. It has 5 stages each requiring 3 steps to complete. Each stage shows one of the barbecue symbols in a progressing order. A step is completed by landing a MYSTERY SAUCE scatter with a pepper marker. More than one step can be completed during a single spin.

After completing 3 steps in the current stage of the progress, the symbol represented in that stage is upgraded to the next symbol in line and will only appear as the upgraded symbol during the rest of the bonus round.

If all stages of the HOT BAR are completed only the highest-paying GHOST PEPPER symbol will appear in place of all the other barbecue symbols.

Additionally, completing each of the first 2 stages of the HOT BAR awards +2 BONUS SPINS. Completing each of the second 2 stages awards +3 BONUS SPINS. Completing the 5th and final stage awards +5 BONUS SPINS.

Gamble Wheel

After a spin which results in a win of more than 0.10 EUR, the "Gamble" button is activated and the player may enter the Gamble game for a chance to increase their win.

The Gamble Wheel offers the player true odds and always plays 100% randomly with 100% RTP. The player can configure the Gamble using the following options:

Pressing the plus button increases the potential win on the ladder and recalculates the wheel's chances. Pressing the minus button decreases the potential win. The green section of the wheel displays the exact chance of winning. The red section displays the exact chance of losing. If the player commits to pressing the Gamble button, the pointer within the wheel will spin. If the pointer lands in the green area, the player wins the highlighted prize which they chose in advance. If the pointer lands on the red area the Gamble is over and the player returns to the slot game.

The player doesn't have to collect the winnings manually. They are auto-collected after every Gamble round. Press the "Collect" button to collect your winnings and return to the slot game.

If the Gamble feature is closed, the player cannot return to the feature unless they win another round in the slot game. The Gamble feature is disabled during auto-play. Jackpot winnings cannot be gambled.
