

Gorilla Kingdom Touch™ Game Rules

- Gorilla Kingdom Touch™ is a 5-reel video slot with up to 1024 bet ways featuring Free Spins with a Symbol Transform Feature and Extra Free Spins.
- The game is played with 1024 bet ways and different bet and coin values.
- The game can be played with cash or coins. To switch between cash and coins, go to the Game Settings. **Note:** Not all betting modes are offered by all operators.
- Bet is the number of coins or cash bet per spin.
- When playing with coins, the bet value is set by tapping the Bet Settings button and selecting the coin value and the bet level. Note: available only in case of multiple bet levels. When playing with cash, the bet value is set by tapping the Bet Settings button and selecting the bet.
- **BALANCE** displays the amount of cash or coins available to bet.
- Winning combinations and payouts are made according to the Paytable.
- Symbol payout values shown in the Paytable are dynamic and change in accordance with the selected bet value.
- Matching symbols in any position on two or more adjacent reels, starting from leftmost reel to the rightmost reel is a winning combination. For more information about the number of symbols needed, see the Paytable.
- Bet way wins pay if in succession from leftmost reel to right.
- Example as follows:

- Only the longest matching combination per symbol is paid.
- More bet way wins are created when additional instances of the symbol appear on the same reels that create the longest bet way win.

- A bet way win is equal to the value shown in the Paytable.
- Simultaneous wins on different bet ways are added.
- **Note:** The following functions might not be offered by all operators: Autoplay, Quick Spin, Quick Stop.

Example of a bet way payout when playing a bet in coins

- 5 matching Gorilla symbols on adjacent reels starting from the leftmost reel award 40 coins. This result is multiplied by 2 (for 2 Gorilla symbols on reel 4), giving a total win of $2 \times 40 = 80$. When playing with cash, the bet way payout follows the same logic as when playing with coins, and the calculated outcome depends on the current coin value.

Scatter Symbol

- 3 or more Scatter symbols appearing anywhere on the reels in the main game activate Free Spins.
- The correspondence between the number of Scatter Symbols and Free Spins awarded is as follows:
 - 3 Scatter symbols = 10 Free Spins
 - 4 Scatter symbols = 15 Free Spins
 - 5 Scatter symbols = 20 Free Spins

Free Spins and Extra Free Spins

- When 2 or more Scatters appear anywhere on the reels in Free Spins, Extra Free Spins are awarded.
- These Extra Free Spins are automatically added to the remaining Free Spins won in the main game.
 - 2 Scatter symbols = 3 Extra Free Spins
 - 3 Scatter symbols = 10 Extra Free Spins
 - 4 Scatter symbols = 15 Extra Free Spins
 - 5 Scatter symbols = 20 Extra Free Spins
- 2 Extra Free Spins are awarded each time an animal panel is filled. For more information on animal panels, check the Symbol Transform section.
- Free Spins are played at the same bet as the round that activated Free Spins.
- At the end of Free Spins:

- The total win from Free Spins is added to any wins from the round that activated Free Spins.
- The game returns to main game.

Symbol Transform

- In Free Spins, the Gorilla symbol may appear randomly

- transformed into a Gorilla mask on the reels.
- The Gorilla mask symbol has the same value as the original Gorilla symbol, and it is counted as such when evaluating the wins. (When checking the game logs, you can see the Gorilla mask symbol displayed as in before it gets collected into the totem stone).
- When a Gorilla mask is present on the reels, it rolls out - leaving a Gorilla symbol in its place -, and lands into and fills a slot of the animal panel.
- The 4 round panels embedded in the totem stone feature the animal symbols of the game (except for the Gorilla symbol): Leopard, Hornbill, Okapi, and Pangolin.
- Animal panels are filled in this order of appearance:

- When 6 have been collected,

transforms into on the reels.

- When 12 have been collected,

transforms into on the reels.

- When 18 have been collected,

transforms into on the reels.

- When 24 have been collected,

transforms into on the reels.

- Once all 24 slots of the totem stone are filled, disappears from the reels.
- All wins are evaluated before the transformation of the animal symbol to the Gorilla symbol takes place on the reels.
- At the end of Free Spins, all transformed symbols revert to their original form.

Game Functions

- The table below lists the different buttons found in the game and describes their functions.

Main Game

Spin Button

Tap to start playing at the current bet value.

Stop Button

Tap to stop the game round.

Autoplay

Tap to choose the number of Autoplay rounds and advanced Autoplay settings.

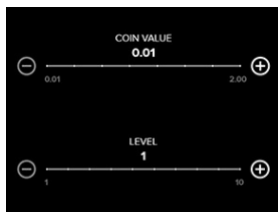

Stop Autoplay

If Autoplay rounds have been chosen, the remaining number of rounds is displayed on the Spin button. Tap the Spin button to stop Autoplay.
