

TREAT

Special scatter symbol, which awards an instant cash prize amount of 1x, 2x, 3x, 5x, 10x, 15x, 20x or 25x the current bet. TREAT symbols do not participate in any line combinations and up to 4 can land after a spin.

TRICK

Special scatter symbol, which transforms into WILD. WILDS substitute for all paying symbols and count as the symbol which forms the longest winning combination on a single pay line. Occasionally, when the TRICK symbols transform, they can reveal multipliers of x2 or x3, that will multiply all winnings for the current spin, including TREAT cash prizes. If more than one TRICK symbols have multipliers when they transform the multipliers are summed up on top of the reels before being applied to all winnings. Up to 4 TRICK symbols can land after a spin.

HALLOWEEN SPINS

3, 4 or 5 HALLOWEEN SPINS scatter symbols anywhere on the reels will reward 10, 12 or 15 HALLOWEEN SPINS respectively in a bonus round. There are no retriggers, meaning no new HALLOWEEN SPINS symbols can land on the slot during the bonus game.

During HALLOWEEN SPINS the multipliers revealed by TRICK symbols accumulate and are stored and active for the duration of the bonus round. The maximum possible accumulated multiplier is x15. The multiplier resets at the end of the HALLOWEEN SPINS.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.
