

SPECIAL SYMBOLS AND FEATURES

WOLFKIN

The WOLFKIN is 1x4 super wild symbol which always lands in full view on the middle reel. When it lands together with Stone Wolf scatters it may transform them into WILD symbols.

WILD

WILDS substitute for all paying symbols and count as the symbol which forms the longest paying combination on a single win line.

The game features 2 types of WILDS – the 1x4 WOLFKIN super wild symbol and the golden WOLF WILD which appears when a Stone Wolf scatter is transformed into a WILD symbol by the WOLFKIN.

WOLVEN FLAME

Sometimes during a spin the WOLFKIN may spread her flaming wings and destroy some symbols which have landed on the screen. After that only Stone Wolf scatters will land for her to transform into golden WOLF WILDS.

The Wolven Flame feature may only trigger once in a single spin.

FREE SPINS

3 FREE SPINS scatters on the first, middle and last reels award 7 FREE SPINS. In the normal game FREE SPINS scatters cannot land together with the WOLFKIN Super Wild.

At the start of the bonus round the WOLFKIN Super Wild becomes locked on the middle reel and stays there until the end of the bonus round.

During FREE SPINS, landing 2 scatters on the first and the last reel awards 3 bonus FREE SPINS.

HOW TO PLAY WOLFKIN

Total Stake

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or – buttons.

Spin the Reels

If you are playing on desktop, click the Spin button or press the spacebar to spin.

Autoplay

Press the AUTO button to commence automatic play of the game at the currently selected stake. Select how many spins to play via the Total Spins Dropdown menu.

More Autoplay settings

Select the loss limit: The Autoplay will stop at the last spin before the loss limit is reached. The Autoplay loss limit should be higher than your stake.

Expand the AUTOPLAY dialog by choosing MORE AUTOPLAY SETTINGS. Here you can select additional criteria for the AUTOPLAY stop including - Stop if single win exceeds certain amount; Stop on Bonus Feature.

Gamble Wheel

After a spin which results in a win of more than 0.10 EUR, the "Gamble" button is activated and the player may enter the Gamble game for a chance to increase their win.

The Gamble Wheel offers the player true odds and always plays 100% randomly with 100% RTP. The player can configure the Gamble using the following options:

Pressing the plus button increases the potential win on the ladder and recalculates the wheel's chances. Pressing the minus button decreases the potential win. The green section of the wheel displays the exact chance of winning. The red section displays the exact chance of losing. If the player commits to pressing the Gamble button, the pointer within the wheel will spin. If the pointer lands in the green area, the player wins the highlighted prize which they chose in advance. If the pointer lands on the red area the Gamble is over and the player returns to the slot game.

The player doesn't have to collect the winnings manually. They are auto-collected after every Gamble round. Press the "Collect" button to collect your winnings and return to the slot game. If the Gamble feature is closed, the player cannot return to the feature unless they win another round in the slot game. The Gamble feature is disabled during auto-play. Jackpot winnings cannot be gambled.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

Winning combinations and payouts are made according to the Paytable.

Symbol payout values shown in the Paytable are dynamic and change in accordance with the selected stake value.

If you are playing a Lines game, the prize value from one payline is equal to the payout advertised in the Paytable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid. If more than one win occurs on the same way or cluster, the largest win is paid.

Winning combinations and payouts are made according to the Paytable.

If you are playing a Lines game, the prize value from one payline is equal to the total stake multiplied by the symbol multiplier advertised in the Paytable. Where multiple wins occur on

multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the paytable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game. In case of an incomplete game round due to connection loss where the result has occurred, but the player could not be informed of this fact, the game will inform the player of the outcome upon refreshing of the game and the result will be visible in the Game History.
