

SPECIAL SYMBOLS AND FEATURES

ZAIDA

Randomly Zaida, who is placed behind the slot, may activate and trigger a RANDOM FEATURE that will last for a duration of 5 consecutive paid spins with the current stake. The available features are REMOVE SYMBOLS, WILD ABUNDANCE and MULTIPLICATION.

REMOVE SYMBOLS

When triggered one symbol type will be removed from the reels for the next 5 consecutive spins in the following order: 10, J, Q, K, A.

All removed symbols are available to land again after the feature ends.

WILD ABUNDANCE

When triggered 1 or 2 LOCKED WILDS will land on the slot on each spin for the next 5 consecutive spins for up to 10 possible LOCKED WILDS present on the 5th spin. The LOCKED WILDS will be unlocked after the 5th spin.

MULTIPLICATION

When triggered a MULTIPLIER will become active above the slot and be applied to all wins occurring in the next 5 spins. This MULTIPLIER rises on each of those spins by +1 or +2 to up to x10. The MULTIPLIER is removed from the slot after the 5th spin.

FORTUNE SPINS

3 FORTUNE SPINS scatters on reels 1, 3 and 5 trigger 5 FREE SPINS. At the start of the bonus round Zaida shuffles 3 cards, each representing one of the features available in the normal game. The player must pick one and will have that revealed feature active for the duration of FORTUNE SPINS. All features act the same as in the normal game.

After the last FREE SPIN the player will be granted the opportunity to pick again. The previously picked card will become a "COLLECT" card and will be shuffled back with the remaining feature cards. Then if the player picks the "COLLECT" card the bonus ends and all wins accumulated during the bonus round will be paid out.

If the player picks a feature card the bonus round continues with 5 more FREE SPINS, in which the newly picked feature becomes active in addition to the one awarded from the previous pick. The result of the previously picked feature remains unchanged after each RETRIGGER.

Ultimately the player may RETRIGGER FORTUNE SPINS twice for a total possible 15 FORTUNE SPINS and have all of the 3 features active after the second RETRIGGER. All active features are deactivated at the end of the bonus round.

HOW TO PLAY ZAIDA'S FORTUNE

Game Progress

Any progress features in the game, including symbols locked onto the reels which affect subsequent spins, are saved for your game at the stake level you are playing at.

You can have different progress levels at different stakes on the same game, and move between them by changing the stake.

If you are awarded free spins from a promotional campaign any progress in the main game including any locked symbols, will be saved and be available to continue playing at the same stake once the free spins have been completed.

Please note that this stateful game saves its state forever.

Total Stake

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or – buttons.

Spin the Reels

If you are playing on desktop, click the Spin button or press the spacebar to spin.

Autoplay

Press the AUTO button to commence automatic play of the game at the currently selected stake. Select how many spins to play via the Total Spins Dropdown menu.

More Autoplay settings

Select the loss limit: The Autoplay will stop at the last spin before the loss limit is reached. The Autoplay loss limit should be higher than your stake.

Expand the AUTOPLAY dialog by choosing MORE AUTOPLAY SETTINGS. Here you can select additional criteria for the AUTOPLAY stop including - Stop if single win exceeds certain amount; Stop on Bonus Feature.

Gamble Wheel

After a spin which results in a win of more than 0.10 EUR, the "Gamble" button is activated and the player may enter the Gamble game for a chance to increase their win.

The Gamble Wheel offers the player true odds and always plays 100% randomly with 100% RTP. The player can configure the Gamble using the following options:

Pressing the plus button increases the potential win on the ladder and recalculates the wheel's chances. Pressing the minus button decreases the potential win. The green section of the wheel displays the exact chance of winning. The red section displays the exact chance of losing. If the player commits to pressing the Gamble button, the pointer within the wheel will spin. If the pointer lands in the green area, the player wins the highlighted prize which they chose in advance. If the pointer lands on the red area the Gamble is over and the player returns to the slot game.

The player doesn't have to collect the winnings manually. They are auto-collected after every Gamble round. Press the "Collect" button to collect your winnings and return to the slot game. If the Gamble feature is closed, the player cannot return to the feature unless they win another round in the slot game. The Gamble feature is disabled during auto-play. Jackpot winnings cannot be gambled.

General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

Winning combinations and payouts are made according to the Paytable.

Each individual payline can pay only once per spin.

If you are playing a Ways or a Cluster game, the prize value from one way or winning cluster is equal to the payout advertised in the paytable. Where multiple wins occur on multiple ways or clusters, the total win values are summed. If more than one win occurs on the same way or cluster, the largest win is paid. If more than one win occurs on the same way or cluster, the largest win is paid.

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin.

If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.
